

# ZEV BEATS PAPYRUS IN RACE FOR \$100,000

## CHANGE DATE OF BENEFIT FOR FIRE VICTIMS

Performance to Be Staged on November 6; Tickets to Sell at \$5 Each

"We are going to present a million dollar cast of professional talent at the benefit performance for the dependents of the victims of the Verdugo Hills fire," declared W. A. Howe, manager of the Glendale Theatre, at a meeting of the publicity committee in charge of the preliminary arrangements in the Chamber of Commerce rooms this morning.

"Louise Dresser has thrown her heart and soul into the plan," Mr. Howe continued, "and we will have her assistance in bringing to Glendale a list of artists, headliners from the vaudeville and the legitimate stage, such as has never before been seen in Glendale."

"Miss Dresser, in a statement last night, declared that the death of J. W. McGahan and Clarence Edwards were on a par with the supreme sacrifice made by the soldiers on the battlefields of France and Flanders, dying, as they did, in defense of the homes of the people of Glendale," and she added that no benefit in which she has been asked to participate in the course of her many years on the stage has ever made the appeal to her that this one does."

The tentative date that had been set for the performance, October 29, has had to be changed, on account of the benefit for the Actors' Fund that is to be held on that date, and the new date for the fire victims' benefit has been fixed for Tuesday, November 6, in the Tuesday Afternoon club auditorium.

Owing to the limited seating capacity of the Tuesday Afternoon club, which is only 763, the receipts that would have resulted from the sale of tickets at \$1 each would have brought in only a comparatively small sum, and it has been decided by the committee to set the price of the tickets at \$5 each and to sell out every seat in the house at this price.

As both Mayor Spencer Robinson, chairman, and Mr. Howe pointed out, the presence of some of the new subscribers to the fund (Continued on page 8)

## NEW SUBSCRIBERS TO RELIEF FUND

List of Those Who Have Given Since Publication of Names Friday

Elsewhere in this edition of The Glendale Evening News appears the complete list of subscribers to date to the fund being raised for the relief of the families of Clarence Edwards and Joseph W. McGahan, who lost their lives fighting fire last Saturday.	
Following will be found the list of new subscribers to the fund since the list was published yesterday:	
Millie H. Berry	25.00
Dan Campbell	25.00
Jewish Sisterhood	20.50
Residents of 900 block, North Louise	20.25
W. Glendale Imp. Assn.	20.00
W. T. Jeffrey	20.00
Glendale L. O. O. F., 388 D. L. Gregg Hardware Co.	16.50
E. F. Chas. Co.	10.00
Fred F. Peterson	10.00
R. S. Person	10.00
E. Duncanfield Jones	10.00
F. W. Pigs	10.00
J. C. Sherer	10.00
Mr. and Mrs. George H. Moore	10.00
Parliamentary Law Club	7.00
M. P. Harrison	5.00
J. Holden	5.00
R. M. Brown	5.00
W. B. Kelly	5.00
Dr. Walter M. Boyd	5.00
F. H. Smith	5.00
E. F. Saunders	5.00
S. A. Chase	5.00
Pythian Sisters, La Halle Temple, No. 122	5.00
Rudel Tax Agency	5.00
A News Subscriber	5.00
Class A 7-1, and teachers of Wilson Ave. Int.	3.81
Miss E. S. Ainsworth	2.00
Ralph Hilton	2.00
Mrs. M. J. Brooks	2.00
Mrs. B. R. Berry	1.00

## Collins, Storey and McGroarty On Dinner Bill

Don H. Packer, Mitchell Frug and Harley G. Preston are members of a committee arranging a stag banquet for members of Glendale post No. 127, American Legion, to be served Friday night, October 26, in the Tuesday Afternoon clubhouse at 7 o'clock.

Attorney Dwight H. Stephenson has been named toastmaster. John Steven McGroarty has been asked to speak. Colonel Walter P. Storey, Southern California National Guard chief, has been invited to attend.

James H. Collins of Long Beach, commandant of the department of California, will be the guest of honor at the affair. Eats and entertainment will be the feature, according to Chairman Packer.

Tickets are being sold legionnaires for \$1.50. Members of other posts are invited to participate.

## P. T. A. RECEPTION HONORS FACULTY

President of Teachers' Club Favors Educator in Federal Cabinet

Glendale parents and teachers were brought together for an informal social time last night in the boys' gymnasium at the Glendale Union High school, where the Parent-Teacher Association federation members were hostesses at the annual reception honoring the city teachers. School banners and a profusion of flowers and greenery made the large gymnasium attractive for the affair.

Receiving were Mrs. E. B. Moore, president of the federation; Mrs. C. H. Whitney, president of the high school association, and the presidents and courtesy chairmen of all the associations in the city.

Mrs. J. A. Grant, courtesy chairman of the federation, was chairman of the affair, and was assisted by the courtesy chairmen of the associations and their committee members. Artistically decorated refreshment tables were located about the room and presided over by these women. After the program teachers, parents and friends gathered about the table representing their school for an informal social time.

Courtesy chairmen assisting Mrs. Grant were Mesdames John Fox, James J. P. King, Mair, F. Ford McCormack, Reid, Paul Brown, H. Kressman, McCurdy, Canfield, F. W. Evans, W. J. Hohnholz.

Following the flag salute led by Mrs. E. B. Moore, and the singing of "America" under the direction of R. Ernest Tucker, Mrs. Moore greeted the teachers on behalf of the federation. Mrs. Moore said:

"In behalf of the federation I welcome you this evening. I also want to congratulate you on being so fortunate as to get positions in beautiful Glendale."

Praises School Heads

"Our high school teachers are to be congratulated on having such supervisors as both Mr. and Mrs. G. U. Moyse and our grammar schools are very fortunate in having Richardson D. White as superintendent."

"We want our schools to be among the best in the world. We desire that our girls and boys grow up into the very highest type of real women and men. We want to educate our children into being good citizens."

"P. T. A. means parents and teachers and so, united we stand, divided we fall," and our Great Teacher has said, "a house upon sand will fall, but one built upon rock, good foundations, will stand."

"Let us all get the vision and join together in making this the very best year so far in Glendale schools."

Response to Mrs. Moore's welcome came from Mrs. Mary Oden Ryan, president of the Glendale City Teachers' club. She said in part: "On behalf of the Glendale City Teachers' club I wish to express the highest appreciation of your welcome and good wishes. You have come to stay and be an auxiliary part of every school system and we depend upon you to help us solve many of the problems that of necessity arise in every progressive educational department."

Favors Federal Aid

"We are at the threshold of a new year of achievement and what is our goal? I believe we should give our sincere, devoted and unqualified support to federal aid and federal recognition of public education without federal interference in any way with state and (Continued on page 8)

## \$500 LEGION MAY MERGE FUND FOR WIDOWS FOOTHILL CITIES

Local Post Honors Memory of Comrade Edwards at Big Meeting

By GIL A. COWAN  
Of The Evening News Staff

Eighty members of Glendale post No. 127, American Legion, last night subscribed \$343 to the widows' fund in homage to their fellow member, Clarence Edwards. Dru Nicols is in charge of the collection which has as its goal \$500 by the night of November 6 when a huge benefit entertainment will be staged.

Many reports were made on the work of the American Legion post in attending to funeral arrangements for their departed comrade. Vice Commander Don Packer gave great praise to Alfred Barron for his personal services to the stricken mother, Mrs. Johanna Edwards. He also reported on action taken at the special meeting Tuesday night and Attorney James F. McBryde read resolutions of respect which had been prepared.

Reports Are Heard

Emil Kiefer reported that more than fifty legionnaires attended the services.

Rev. C. M. Calderwood suggested that the post provide one member for the benefit program.

George Kaeding was given due credit for assuming Mr. Edwards' note on a purchase of property by the legion.

Tickets were sold for the Glendale Athletic club dance tonight for the benefit of the relief fund for the relatives of Messrs. Edwards and McGahan.

It was a night of nights for the Glendale post. Record attendance listened to various reports, chronicled here and elsewhere the most interesting, perhaps, being that on the national convention in San Francisco which was attended by Commander Chalmer D. Day and others.

Chance to Advertise

Angelo Bessolo of Theodore Koethen post, Eagle Rock, was among the visitors present who had a word to say and he called attention to the opportunity for advertising Glendale and vicinity by having motor cars at headquarters in Los Angeles this week and to give delegates who are now touring the state a trip through the best of the southland.

The Los Angeles legionnaires will appreciate this aid, Mr. Bessolo informed the Glendale post and no doubt many cars will be at the service of visitors in our midst. It is estimated that fully 20,000 veterans will be in Southern California the next ten days.

Americanization Program

An invitation from the Ladies' Auxiliary was extended the legionnaires to participate in an Americanization program on Monday night, November 5.

Attorney McBryde called attention to the visit of General Joseph Haller of the Polish army to this vicinity and Attorney Dwight W. Stephenson started something when he commended that the new national commander of the American Legion, John R. Quinn of California, was a sterling democrat.

"That was made possible by the (Continued on page 8)

## LATEST NEWS

TWENTY-TWO THOUSAND TONS IN WALNUT CROP

LOS ANGELES, Oct. 20.—The California Walnut Growers' association announced this morning that the estimate for this year's crop was 22,000 tons, slightly less than last year.

WALTON IMPEACHMENT CASE STARTS MONDAY

STATE CAPITOL, OKLAHOMA CITY, Okla., Oct. 20.—House of representatives' impeachment charges against Governor J. C. Walton and other high state officials will be filed Monday at 1:30 p. m. by the house investigating committee, Chairman W. E. Disney announced today.

CHINESE AND JAPANESE STAGE BATTLE

SHANGHAI, Oct. 20.—Chinese soldiers in small boats attempting to board the Japanese steamer Tehtang Maru at Chung King today were met by a deadly hail of machine gun fire. The boarding boats were sunk and fifty Chinese soldiers either killed or drowned. Chinese soldiers ashore, returned the fire, wounding three Japanese.

FORTY DIE WHEN ITALIAN SHIP HITS MINE

CONSTANTINOPLE, Oct. 20.—The Italian steamship Agatocles struck a mine in the Gulf of Ismid today. Forty men are reported missing.

2000 HUNGER STRIKERS IN IRISH JAILS

DUBLIN, Oct. 20.—More than 2000 republican prisoners are on hunger strike in Irish jails, according to a statement issued by republican headquarters today. They claim the hunger strike movement is growing rapidly.

## Yankee Horse Flashes Home Ahead of British Entry in International Race

BELMONT PARK RACE TRACK, N. Y., Oct. 20.—Confidence ruled the stables of Zev and Papyrus today. The jockeys said:

EARL SANDE, up on Zev: "I expect to win, but it won't be easy—even with so good a horse as Zev. It is my sincere wish that the best horse win."

STEVE DONOGHUE, up on Papyrus: "Papyrus has never failed me. I believe we will win."

Above, Zev, with Jockey Sande up. Below, Papyrus, with Jockey Pete Donoghue, up; Harry Sinclair, Zev's owner, center, and Ben Irish, Papyrus' owner.

## STATES' DUTY IN DRY CRISIS TOLD

Coolidge Points Out Joint Duty in Enforcement of Prohibition Law

By KENNETH CLARK  
For International News Service

WASHINGTON, Oct. 20.—President Coolidge told the governors of thirty-three states at the White House this afternoon that it is as much their duty to enforce the prohibition law as it is the federal government's. He told them that the eighteenth amendment and the Volstead law confer joint responsibility upon state and nation.

Enforcement of the prohibition laws, the president declared, "is not a political question and cannot be made a political question."

Every line of the president's brief speech to the governors, whom he had invited to the White House, stressed the fact that law enforcement is not the peculiar function of the federal government, but of the states, counties and municipalities.

Back Up President

President Coolidge was followed by Attorney General Clegg, who emphasized the same point made by the president—that the states and communities must co-operate with and aid the federal government in enforcing prohibitory laws.

Pledges Federal Aid

Speaking for the federal government, the president pledged state executives every possible agency for the enforcement of laws and for co-operation in the enforcement measures they take locally.

"The American people are not a nation of inebriates," he declared. "They are not a people who can be charged with being hypocrites. They have formed their government and enacted their laws with all due solemnity to promote their welfare and their liberties."

Defies Crime Element

"This great law abiding element of the nation is entitled to protection. I propose to give that support and protection to the limit, provided by the constitution and the law of the land against every lawless element."

"Neither the eighteenth amendment nor the prohibition act undertakes to relieve the states of their responsibility. On the other hand, the amendment confers jurisdiction upon them. The prohibition act authorizes state and local prosecuting attorneys to begin injunction proceedings in any court having equity powers in the name of the United States."

## MEDBURY SAID IT!

By JOHN P. MEDBURY  
NEW YORK, Oct. 20.—This afternoon at Belmont park, Papyrus, the English horse who came over to this country first class, will race Zev to see whether or not he goes back steech.

Everything will probably go along smoothly, unless Judge Landis goes out to the park and from force of habit calls off the race on account of rain.

The track is exceptionally muddy but it is hoped that neither of the horses will get seasick.

The Jockeys will ride their mounts as far as possible, then finish the course in rowboats.

That's why they wanted to run My Own instead of Zev. His owner is an admiral and used to be in the navy.

But for the time being, it looks as if Grayson's horse will have to stay in dry dock.

Papyrus is in the habit of drinking real 7 per cent brew, yet we expect Zev to win the race on near beer.

Although their stables are far apart, Zev has contracted a slight cold and is coughing with an English accent.

He's a smart horse and wants to win the race for financial reason. He realizes too much of our money is involved.

Papyrus is so ignorant he thinks it's the brown derby Zev won.

ALEXANDER, Minn., Oct. 20.—After an all night battle in which he stood off a score of deputies and militiamen who riddled his home with bullets and attempted to oust him with ammonia, Edward Larson, 38, went to his death at 5 o'clock this morning when his residence was burned to the ground by order of the sheriff and county attorney.

During the fierce battle, William Randsen, 25, son of David Randsen and a former service man with a reputation as a sharp shooter, was shot and killed while acting as a special deputy.

Larson was wanted for the murder of Jacob Ley, 60.

NOTRE DAME LEADS

PRINCETON, N. J., Oct. 20.—Notre Dame was leading the Princeton eleven by 12 points to 2 at the end of the third quarter of their game here today.

## U. S. ENTRY 5 LENGTHS AHEAD AT FINISH

British Jockey's Desperate Bid for Victory Fails in Home Stretch

By DAVIS J. WALSH  
For International News Service

BELMONT PARK, NEW YORK, Oct. 20.—Zev, mighty colt of the Sinclair string, won the great international race for the 3-year-olds and the purse of \$100,000, beating off the British champion, Papyrus, by five lengths on a mud-heavy track. The son of The Finn made a stirring chase of it from the flagpole to finish.

Zev raced to the front long before the eighth pole and staying at the pace thenceforth, in spite of repeated and valorous efforts of Steve Donoghue to bring the English entry up from the rear.

The time of the winner was 2:35 2-5, almost seven seconds off the track record, established by Man-O-War, but fast considering the conditions.

It was too fast for Papyrus. The latter broke away in front getting the jump on Zev, and racing away like a badly scared animal, but inside of 100 yards the Sinclair colt came up on the inside and poked his intelligent nose to the fore.

It is a matter of record that he kept it there. Turning into the back stretch, he had a long lead on Papyrus, but Donoghue proceeded to bring the latter along.

It was the only bid that Papyrus had in him. He hung on like a grim shadow until a quarter mile from home and then found he hadn't a thing left when Zev went to the whip and kicked Zev on down the stretch.

With ever-lengthening stride Zev came on to the wire, leaving the British champion floundering in his wake. At the finish he had a long five lengths to his advantage and a great crowd, estimated between 65,000 and 75,000 opened their concerted larynx and gave Zev a cheer that a true champion deserves.

## RUSH TROOPS TO QUELL OUTBREAK

Police Embark for Mindanao As Fanatical Moros Terrorize Region

MANILA, Oct. 20.—Alarming reports from constabulary officers in Mindanao concerning the reported Moro uprising there, caused Governor General Wood this afternoon to order two companies of the Philippine constabulary to proceed there immediately by steamer. The departure of the vessel was delayed to take the troops aboard. The exact nature of the reports from Mindanao was not made public but it is known the constabulary officers there feel they are unable to control the situation without outside aid.

There are at present 2000 constabulary now stationed in Mindanao, nearly half of which are in the disaffected region. Despite the belief of Manila authorities that the reports are exaggerated, the rumor persisted today that about 1000 fanatics are terrorizing the Lanao region.

Officials Seek Safety

The postmaster at Parang asked to be relieved and the director of posts at Topacio ordered his office closed while his employees sought safety.

Governor Wood had intended leaving for Mindanao next week but the outbreak may hasten his departure from Manila two or three days.

Hadji Butu, ex-secretary of state and Sultan of Sulu, is leaving today for Mindanao in an attempt to pacify the fanatics.

## Society Woman Held For Hollywood Crash

LOS ANGELES, Oct. 20.—Alleged to have failed to make a police report after an automobile which she was driving collided with another machine a week ago, pretty Mrs. G. K. Baker, 24, wife of a former commander of the United States navy, was held in the city jail today while efforts were being made to obtain her release on \$3000 bail.

S. F. Whitaker of 521 South Brand boulevard was a business visitor at San Diego on Monday.

Mr. and Mrs. M. M. Betz of 405 Hawthorne street left this morning for Soboho Hot Spring, where they will spend the week-end.

Mr. and Mrs. Arthur Kresling and daughter, Hope Kresling of 706 East Elk avenue, were visitors with friends in Los Angeles Friday night.

Miss Virginia Fambrough of Whittier is spending the week-end with her parents, Mr. and Mrs. T. J. Fambrough of 206 North Orange street.

Ernest Schuyler of 330 West Ivy street, who has been quite ill at his home for the past week, has returned to his classes at Occidental college.

Mrs. Roy Parker and Mrs. Emma Cruse, both of Los Angeles, were visitors Wednesday at the home of Mrs. C. A. Littleton of 512 West Lexington drive.

Miss Vivian Nay, daughter of Mr. and Mrs. F. B. Nay of 215 North Central avenue, is entertaining a number of her friends tonight with a dancing party at her home.

Miss Catherine Bellows of Spokane, Wash., is spending several days visiting at the home of her brother and sister-in-law, Mr. and Mrs. Theodore Hall of West California drive.

Mr. and Mrs. L. E. Brown of Sycamore Canyon have recently moved to Hermosa Beach to make their home. The Browns' residence was not destroyed in the recent fire in the canyon.

Mrs. George Coles of Los Angeles, formerly a resident of this city, was a visitor with Glendale friends Thursday afternoon. Mrs. Coles was formerly Miss Estelle Rothburn of this city.

Miss Marjorie Imler, who is a member of the faculty of the Fillmore junior high school, is spending the week-end at the home of her mother, Mrs. A. H. Imler of 336 West Park avenue.

Mr. and Mrs. Henry T. Anderson of 247 North Orange street are having the pleasure of entertaining at their home guests their daughter, Mrs. G. Humphreys, and daughter, Miss Gladys, of San Jacinto.

Albert Bryant, Glendale's lyric tenor, will be on the radio next Tuesday evening, from the Times broadcasting station. Mr. Bryant will also be the soloist Sunday morning at the First Methodist church of Glendale.

Robert A. Brackett of Palms has been visiting for the past week with his mother, Mrs. Charlotte Brackett Adams street. On Saturday Mrs. Brackett and two children, Peggy and Rogers, will join them.

Mrs. A. S. Chase of 400 Riverdale drive chaperoned a party of young people from the high school to South Pasadena yesterday afternoon, who were guests of her daughter, Miss Cecil Chase. They attended the football game.

Miss Elizabeth Church of Pulaski, Tenn., who is the house guest of her uncle and aunt, Mr. and Mrs. N. J. Haynes of 472 Patterson avenue, returned yesterday from a two days' outing with friends at Avalon, Catalina Island.

The Live Cole class of the Central Christian Sunday school held its regular bi-monthly business meeting last night in the social quarters of the church. Mrs. Helen Miller, the recently elected president of the class, was in charge of the gathering.

Mrs. G. H. Bigelow of 1351 North Columbus avenue is planning on driving to San Francisco next Thursday for a few days' pleasure trip. Mrs. J. McManis and Miss Frances Gray of Los Angeles will accompany her. They will stop at Santa Barbara, Paso Robles and San Jose.

Rev. H. J. Horn of 221 North Louise street has just returned from an enjoyable five months' trip in the east. He visited his daughter, Mrs. H. V. Barrett, at Atton, Iowa, and other relatives and friends in Buffalo, N. Y. Rev. Horn, who is in his eightieth year, made the trip by himself and reports a most enjoyable time.

That's All  
Much Talent in Glendale  
Support Needed by Players  
Our Denuded Watersheds  
About Living in Cities  
By Gil A. Cowan

A great home talent benefit entertainment is being arranged for the fire hero fund. It will be an event in which all Glendale may participate. There will be those who will appear on the stage. They will be honored. There will be those who will be in the audience. They will be privileged. And there will be many others who will purchase tickets on general principles of playing their part. They are the ones to be thanked.

For it is the dollars which are subscribed between now and the first of November that are going to count for more than anything else in relieving the needs of the survivors of the two men burned to death defending their city from fire. We commend your support to the benefit entertainment, but we also call your attention to The Glendale Evening News' fire hero fund, which is daily mounting to a more representative figure. Give gladly, folks, all ye who can afford it.

Speaking of home talent entertainment, our attention is called to the fact that the Community Players are presenting "Mrs. Wiggs of the Cabbage Patch" on November 2 and 3, expending \$300 on incidentals. A royalty of \$50 must be paid. Advertising costs only \$30. Tickets \$8. Scenery made by the players \$50. Auditorium rent \$120. Extras \$12. Not much, you agree, but it means that 1,000 tickets must be sold at 35 cents each to overcome that expense and give something for their plays.

Glendale should step forward to support not only its Community Players, but its motion picture playhouses, much better than at present. Here are some random ideas, the first particularly poignant, regarding the recent conflagration here:

Thousands of acres of forest lands have been denuded by fire. When winter comes, the thin layer of soil which has been accumulating for many years under the protection of the trees and scrub growth will in part be carried away to clog our rivers, impeding navigation and occasioning floods. It will take years for nature to replace this soil and restore the trees and other growth destroyed in a few hours.—Porterville Messenger.

The recipe for prosperity in this country is very simple. It is hinted at by an eminent economist in a recent lecture to debtors. It is: Pay your bills.—Mail, of Woodland.

Some perfectly sober drivers in Bakersfield think they are going backwards when traveling less than forty-five miles an hour.—Bakersfield Californian.

The only way people can safely and comfortably live together in the body is by a mutual agreement to refrain from annoying each other. And those who, because of indifference or lack of intelligence, refuse to co-operate in this way must either be taught or forcibly restrained from the freedom of action which normal people enjoy.—Fresno Bee.

**Renewed Search for  
George Shick's Body**

SAN DIEGO, Oct. 20.—Renewed search is being made today for the body of George E. Shick, mysteriously missing real estate broker of this city, who is believed to have been murdered.

The authorities were spurred on in their endeavors to find the corpse by the coroner made last night by Mrs. Carrah M. Schieck, the missing man's wife, that she, E. Drew Clark and Mrs. Clark conspired and did forge George Shick's name to a power of attorney which gave them control of the \$75,000 Shick estate.

**DEATHS—FUNERALS**

**FRED NELSON**  
Funeral services for Fred Nelson, who died October 16, 1923, will be held Monday afternoon at 3:30 o'clock at the L. G. Scovern chapel on South Brand boulevard. Interment will take place in Grand View Memorial park. Mr. Nelson is survived by three brothers and two sisters in the states of Illinois and Indiana.

**MRS. DAPHNE PETERSON**  
Mrs. Daphne V. Peterson died Thursday, October 18, 1923, at her home, 1407 Alessandro street, Los Angeles. She is survived by her husband, J. T. Peterson, a mother, Mrs. Villa Shaw, and two sisters of Glendale. Funeral services will be held at 10 o'clock Monday morning at the L. G. Scovern chapel on South Brand boulevard and burial will be in Grand View Memorial park.

**ROY EUGENE TEEL**  
Roy Eugene Teel, infant son of Roy and Mrs. A. Roy Teel of 10436 Justice street, Owensmouth, died at the family home this week, and services were held this morning at the grave in Grand View Memorial park. The L. G. Scovern Undertaking company was in charge.

**Social Events**

**Morning Wedding**  
A home wedding marked by simplicity and beauty, was celebrated at 11 o'clock this morning, October 20, 1923, when the marriage of Miss Alta Bowen and Herbert Alexander, of Pasadena, took place at the home of the bride's parents, Mr. and Mrs. C. A. Bowen, 212 West Garfield street.

Rev. V. Hunter Brink, pastor of the Pico Heights Methodist church, officiated. The pastor of the Central Avenue Methodist church of Glendale, was the officiant. The bride was charming in her going-away gown of gray Russian silk, with hat to match. She carried a bridal bouquet of white roses. Mrs. Edward Clauson, a sister, was the matron of honor. She was attired in brown crepe de chine and carried pink sweet peas. Mr. Alexander was attended by Mrs. Clauson.

The home was most attractively decorated with pink and white flowers. Following the ceremony a wedding breakfast was served, during which the bride cut the beautiful wedding cake which occupied the center of the table.

The guests were immediate members and close friends of the families and included Rev. and Mrs. V. Hunter Brink, of Los Angeles, Mr. and Mrs. Alford Alexander, of Arcadia, Misses Mary, Grace, Bertha and Marion Alexander, of Pasadena, Mr. and Mrs. Edward Clauson, of Upland, Mr. and Mrs. C. A. Bowen and Ernest Bowen of Glendale.

Mr. and Mrs. Alexander left immediately by motor on a wedding trip and on their return will reside in Pasadena.

**Officers Chosen**

At the meeting yesterday morning of the Parliamentary Law club, officers for the coming year were elected as follows:

Mrs. Harry Greenwalt, president; Mrs. O. H. Spradling, vice president; Mrs. Julian W. Bennett, treasurer; Mrs. Grace Barthe, secretary; Mrs. Arthur Franklin, corresponding secretary; Mrs. R. N. Stryker, auditor; Mrs. Charles H. Whitney, historian; Mrs. A. H. Brown, parliamentarian.

The chairman of the various committees were appointed as follows: Mrs. Harry Greenwalt, membership; Mrs. F. L. Martinez, courtesy; Mrs. W. Stevenson, education; Mrs. J. S. Rehburg, Jr., finance; Mrs. C. H. Whitney, publicity; Mrs. Mary Reese, philanthropy.

The completion of the details of organization and the adoption of the by-laws also took place at this time. It was decided to hold the meetings the first and third Friday mornings of each month at 10 o'clock. It is announced the club will continue to meet at the library until a suitable meeting place can be secured.

**Farewell Affair**

Mrs. Alvin Brown, formerly Miss Josephine Emery, was the complimented guest at the home of Dr. and Mrs. A. L. Bryant, 534 North Maryland, Wednesday night, at an affair which was in the nature of a farewell, as Mrs. Brown left Thursday morning to join Mr. Brown at Oakland, where they expect to make their home. The affair followed the birthday dinner given by Dr. and Mrs. Bryant in honoring their sons, Dean and Hugh Bryant and their uncle, Henry Johnston.

The birthday cake, bearing the significant numerals 22 and 82, was the gift of Mr. Johnston, and was served with ice cream and cake to the guests of the evening. Those honoring Mrs. Brown were Mr. and Mrs. Henry Johnston, Mr. and Mrs. E. V. Emery, Mr. and Mrs. Owen C. Emery and son Jack, Mr. and Mrs. Jack Eaton and daughter Mary Jane, Miss Mary King of Hollywood, Gilbert Emery, Owen Shwafter, Russell Tamm, Dr. and Mrs. Bryant and Dean, Hugh and Albert Bryant.

**Plan for Play**

Plans for presenting a play some time in March, were discussed yesterday at the first meeting of the Drama Section of the Tuesday Afternoon club in the foyer at the clubhouse. Mrs. Max Green, curator of the section, was in charge.

Later a social hour was enjoyed on the east terrace with Mrs. E. Chase and Mrs. Malvern Barker as hostesses.

**Football Club**

The Football club meeting yesterday with Mrs. Charles H. Beggs, 1107 North Louise street, voted to give \$10 to the relief fund being raised for the mother of Clarence Edwards and the family of J. McGahan. During the hour the club members and guests spent the time sewing on garments to be given to the Welfare council for holiday gifts to needy children.

**Women Endow Bed**

Carrying out a well planned program of philanthropy, chapter BA, P. E. O. of Glendale were the participants yesterday afternoon in the little ceremony attending the endowment of a bed, for which the chapter contributed the funds, in the True Love home of the Salvation Army in Los Angeles.

Assembling at the home of Mrs.

Walter Stamps, 436 West Colorado boulevard, the chapter enjoyed a two-course buffet luncheon at 12:30 o'clock, the assisting hostess being Mrs. C. C. Cooper. Following the luncheon a short business session was held with Mrs. Frank N. Arnold, president in the chair.

Mrs. E. W. W. Taward, president of chapter C.J., gave a very interesting and instructive talk on parliamentary law.

Another chapter to the clever serial story which the chapter is writing was contributed by Mrs. E. H. Willsford, formerly of Glendale, but now residing in Houston, Tex., Mrs. Willsford's contribution was read by Mrs. Claude Case.

Following the program the chapter motored to Los Angeles.

## MUSIC AUXILIARY TO STUDY OPERA

Junior Branch of Club Holds  
First Meet of Season  
Saturday, Oct. 27

The Junior Auxiliary of the Glendale Music club will hold their first monthly meeting of the fall season at 7:30 o'clock Saturday night, October 27, at the home of Mrs. Nathan Rigdon, 224 West Doran street, first vice-president of the Glendale Music club and chairman of the auxiliary.

The juniors will study opera this year, one-half hour each meeting, Mrs. Rigdon states. Each time a short paper will be read with a brief story of the particular opera under consideration, followed by phonograph selections. "The Barber of Seville" will be studied at the October 27 meeting.

Mrs. Dora Gibson, one of the senior directors, will give a brief review of the opera and trace operatic history briefly up to the time of Rossini, its author. Records will illustrate certain of the best numbers.

Mrs. Rigdon states that Mrs. Spencer Robinson has consented to supply a soloist at each meeting of the club, to render selections from the opera being studied.

Following each monthly half-hour study period, there will be a twenty-minute miscellaneous program, in charge of Mrs. Gertrude Champlin Erb. Games and programs will then round out the evening.

Next Saturday's gathering will find Mrs. Rigdon's home decorated in the Halloween spirit, which will be carried out in the games and programs. Each time the spirit of the season at hand will be this observed, she states.

All young folks over fourteen years old, who are interested in music or would like to be, are invited by Mrs. Rigdon on behalf of the Junior Auxiliary to come to this meeting and join. Membership, she points out, carries with it the privilege of attending all concerts of the Glendale Music club.

## J. S. Schultz Paints Local 'Conflagration'

Another Glendale artist to be inspired by the recent destructive foothill fire is J. S. Schultz, who lives at 102 West California avenue. His painting, "The Conflagration," is attracting much attention in the window of Ed Nisler's clothing store at 135 1/2 South Brand boulevard.

The picture gives a view of the fire at the east terminus of Mountain street, on North Verdugo road.

Mr. Schultz is, in addition to an artist, an architect and designer of note. The Egyptian temple is his work, and he has designed many of Glendale's most beautiful private residences. He is a member of the Glendale Art association.

## Mr. and Mrs. Moon Attend Eagle Rock Harvest Home Festival at Central School

By Evening News Staff Correspondent

Mr. and Mrs. Moon and all the little Moons, taking advantage of the recent eclipse to reach Earth under cover of darkness, paid their respects to Eagle Rock last night, when the big Harvest Home Festival opened.

During the first act of the beautiful pageant, given in the auditorium of the Eagle Rock school with over 150 children in the cast, the glories of America in past generations was unfolded—Indians in their colorful war dances, Puritans depicting the familiar love story of Priscilla and John Alden, colonial dames in the stately minuet, and the charming dances of the Seasons.

**Clever Carnival Scene**  
The second act brushed this olden atmosphere away like a dream, depicting America of today, mighty with energy and vast with power, a carnival scene, showing lines of concessions going full blast, with a lively program of dances and choruses. Gorgeous were the costumes of the dancers, and clever, indeed, their work.

Little Marguerite Blake, child singer and dancer, just back from a year's vaudeville tour, was a headliner. A group of classical dancers from the Page School for girls added also to the professional atmosphere, as did the pupils of Mrs. L. Pittman Kelly. Solos by C. A. Scheffinger, Jr.; George Page Willey and Rev. Middlemass were also featured numbers.

**Work of Local People**  
"Mr. and Mrs. Moon En Tour," as the pageant was called, is the work of Mrs. J. B. Squire and Mrs. Anne Hare Harrison. Miss Evelyn Thomas and Mrs. F. Maurice Kelly have been training the dancers. Mrs. Charles Wentworth was in charge of costumes, assisted by Mrs. Frank Parker. George C. Blake and Mrs. Mabel Mabel also assisted in many women who also assisted in making the play a big success last and will insure its success again tonight.

Walter Dorrance is responsible for the spectacular lighting system on the school grounds. Willey & Hambrecht supplied the necessary electrical equipment. Mrs. W. A. Thompson was in charge of the "Old Curiosity Shop," and Mrs. Mattie L. Maddox had charge of all decorations.

Last night's entertainment, in addition to being a gorgeous pageant, was less a county fair, a carnival, a circus, Coney Island, all rolled into one giant whirl of revelry. It has already been voted the outstanding event of the year in Eagle Rock. In attendance, all previous records have been broken.

**First Act**  
Mr. Moon.....Joseph Fisher  
Mrs. Moon.....Donnis Sample  
Father Time.....Melvin Pierson  
New Year.....Adeena Squire  
Snow Queen.....Marguerite Blake  
Star Beam.....Mary Berry  
Priscilla.....Lucille Wentworth  
Rose Standish.....Pauline Ford  
John Alden.....Jack Kemble  
Indian Scout.....Shirley Garrett  
Indians.....Lewis Hamlin, Glen Sinclair, Ernest Vandegrift, Richard Mercer, Everett Hamlin, Whitney Wilhelm, George Vandegrift, Jack MacCarthy, Milo Osborne, Corwin Hunt, Melvin Clark.

**Many in Cast**  
Puritans—Effie Schrottberger, Laverman House, Jack Kemble, Byron Graves, Lucille Wentworth, Pauline Ford, Mercedes Findlay, Miriam Klemme, Alice Jenkins, Marie Christensen, Wilson Zylde, Roger Pickard, Barbara Yuttenberg, Marguerite Kiers, Lester Berger, Isabel Peabody, Elsa Goetz, David Brawley, Charles Brownell.

Snow Flakes—Nettie Turtin, Roselle Winkler, Winifred Phinney, Bobbie Rosenthal, Charles Hines, Melba Marcott, Helen Jettas, Bettie Cuthbert, Gilbert Poyers, Harold Osborne, Forest Jackson, Robert Shields, Lloyd Osborne, John P. Brown, Carol Downs, Elsa Goertz.

**Summer Blossoms**—Mary Berry, Irene LeMay, Ruth Revoy, Florence Windas, Breaveada Howland, Marian Bryan, Betty Binsley, Lillian Cline, Emma Seamas, Virginia Swegles, Helen Oberman, Dorothy Demann.

**Autumn Leaves**—Marjorie Wilder, Frances Bailey, Bernice Servie, Catherine Weil, Betty Williams, Lorena Hugo, Betty Jameson, Ada Townsend, Betty Wolfe, Hillman Forest.

Between the acts Shirley Allen sang "The Barefoot Trail," and Catherine McBride and Charlotte Servais did a "Dutch Dance." The Eagle Rock community orchestra furnished the music, not only between the acts, but during the entire course of the entertainment. Helen May McNary and Mrs. Elizabeth Morrison accompanied the singers and dancers.

**Second Act**  
Carnival scene introducing Mr. and Mrs. Moon to New America. "Fifty Miles From Nowhere, But It's My Home Town." Egyptian Princess—Marian Parker. Egyptian Dancing Girls—Muriel Tieman, Eulah Tealand, Noreen Reynolds, Mona Reynolds, Virginia Temple, Jean Babcock, Phil Crawford, Ruth Clance.

**"An Old-Fashioned Girl in a Gingham Gown"**—Solo by Gladys Boyd.

**Chorus of Old-Fashioned Girls**—Gladys Boyd, Virginia Puffer, Frances Reynard, Louise Cutts, Laura Frank, Marian Perold, Marjorie Knox, Florence Bruce, Mr. Gallagher, Donald Maynard, Mr. Shean, Philip Wetzel.

**Chorus Listed**  
Chorus—Alida Windas, Ruth Sampson, Nettie Turtin, Rosie Winkler, Melba Marcott, Lucille Wentworth, Pauline Ford, Gladys Boyd, Mexicali Rose.

## LA CRESCENTA CLUB RECEPTION PROVES SUCCESS

Dance In School Auditorium  
Helps to Foster Strong  
Community Spirit

The Women's club dance, held last night in the school house auditorium, was a huge success. Mrs. C. O. Miller had decorated the hall with baskets of golden French marigolds, while the lights were shaded with dainty pink streamers.

The tables were placed in the windows, with the exception of the punch table, which stood in the patio.

This valley is growing so rapidly that at every public affair the newcomers seem to be in the majority, which is as it should be, and makes for a better community spirit. Last night was no exception to the rule, and all old residents and new seemed to have a jolly good time.

**Plenty of Candy Sold**  
The candy table, presided over by Mrs. C. O. Miller and Mrs. B. Nettleton, made over \$17, and was such a success it will, no doubt, be repeated. Mrs. Mark Collins and Mrs. A. W. Brown had charge of the coffee, cake and sandwich table, the punch table being in the hands of Mrs. Mary B. Darrow, Mrs. G. Haskins and Mrs. F. Brown.

**Scouts Plan Party**  
The Boy Scouts of La Crescenta will entertain their parents at dinner in the La Crescenta school house on Friday evening, October 26; on Saturday evening, October 27, the Girl Scouts will give a Halloween masquerade party, which also will be held in the auditorium.

Mr. and Mrs. Arthur Swain of Sparr Heights will entertain friends at a costume party at their home tonight.

**Senior, Junior Girls  
Enjoy Stunt Party**

Little Red Riding Hood, Robin Hood, Japanese maids, Spanish cavaliers, fairies, bell hops, vampires, street gamins, sailors, Hula Hula Girls, Yama Yama girls, senoritas, Red Cross nurses, maids of "76," farmers, butterflies, soldiers, candle sticks, bridges, Rastus and a human telephone composed the colorful pot-pourri of humanity tripping the light fantastic last night in the girls' gymnasium at the high school.

It was "stunt night" for the girls of the senior and junior classes and clever disguises, gay music and bright confetti and other decorations converted the gymnasium into a riotous "Mardi Gras" scene.

Miss Gwen Warner, president of the girls' league, Mrs. George U. Moyle, dean of girls, the class teachers and various committees arranged the affairs.

Piano music for dancing was furnished by Allemae Lantz. The sophomores and freshmen girls are to frolic at a "stunt party" at the same place next Friday night.

**Wilson & Burton Buy  
La Crescenta Office**

The real estate office of Bruce Cook & Talmadge in La Crescenta Thursday came under the control of the firm of Wilson & Burton, which maintains offices in Glendale on San Fernando road at Central avenue and in Hollywood at 6508 1/2 Hollywood boulevard.

Messrs. Bruce and Cook remain as local managers of the La Crescenta office, while Mr. Talmadge will go to San Diego.

A. C. Anderson, who has been in the real estate business in Glendale during the last two years, has been engaged by Wilson & Burton as manager for their three offices. Mr. Anderson reports that the La Crescenta section is rapidly coming into its own, with a strong demand for property both by home-seekers and investors. Property values are advancing, he says.

In addition to the offices mentioned, L. H. Wilson maintains an individual office at 1034 South San Fernando in Glendale, while W. T. Burton has an individual establishment at 200 1/2 West Broadway.

**Attendance Banners  
Awarded 4 Classes**

Four Blue and Gold banners were awarded the classes ranking highest in attendance for the past month at the Wilson Intermediate school's first assembly for the year. Mr. Merrill spoke highly of the four classes that had averaged almost perfect attendance. The winning classes for the month are A-8-I, B-8-II, A-7-II and B-7-I. Following the presentation the assembly was turned over to the school athletic association, and much enthusiasm for the coming membership drive was demonstrated by various extemporaneous speakers, who rose to the occasion and challenged all comers in the race for membership. There are at the present time 588 students enrolled at Wilson Intermediate, and among them they expect to bring in about a thousand dimes during the next four days. Not only the students, but all their friends in Glendale are eligible for membership.

Swinging mirrors hung in fruit trees to reflect the sun are said to frighten away the birds.

## Mrs. Charles H. Toll Honored at Luncheon

Mrs. Charles H. Toll, president of the Los Angeles District Federation of Women's clubs, who met this morning with a committee of Tuesday Afternoon club women at the clubhouse, to inaugurate plans for the twenty-third annual convention of the district, April 8, 9 and 10, 1924, in Glendale, was happily surprised at the end of the conference to find herself honored guest at a luncheon attended by the advisory council of the club.

The luncheon was arranged as a surprise to Mrs. Toll. She met with Mesdames Daniel Campbell, H. E. Sargent and E. W. W. Hayward, the Tuesday Afternoon club committee, and at the end of the conference she was directed to the banquet room, where she found the board of directors, chairmen of committees and curators of sections, forming the advisory council of the Tuesday Afternoon club.

Mrs. Homer Lockwood, chairman of hospitality, was in direct charge of the luncheon, planning the artistic table decorations and menu for the fifty-five or more club women present.

After the luncheon Mrs. Toll expressed her appreciation of the honor and told of tentative plans for the spring convention.

## Dr. L. C. Stuart Has Opened Offices Here

L. C. Stuart, M. D., who is now specializing on gynecology, pediatrics and obstetrics, with offices at 107 1/2 South Brand boulevard, was for many years a specialist along these lines in Rome, N. Y., his former home.

He came to Glendale with his family recently on a visit, arriving September 27. So delighted were they with this city that his wife and four children went back to Rome to put things in readiness to move here, while Dr. Stuart secured offices at the above address and started practice at once. His residence is at present 428 West California avenue.

## Dietrich Realty Co. Builds 4 Branches

A half dozen men are at work today on a real estate office for the Dietrich Realty Company, at Northwest corner of Hillcrest and Kenneth roads, and it is planned to have the establishment open for business Monday morning. Contractor C. M. Briggs is in charge of the job.

## Bright Nimrod Puts One Over on 'Coon'

NORWALK, Conn., Oct. 20.—Al Mills, hustler extraordinaire, found a box turtle and took it home "for no reason at all." Then he found a raccoon's burrow and lugged the turtle there, fastened a stick to its tail and a rag to the stick, and put the turtle as far into the burrow as he could reach. "For no reason at all," the raccoon came out of its burrow and ran into a trap and the turtle followed. "Reckon he was scared out," says Al.

First hot-water heater in the country was brought from England by Joseph Nason in 1842.

## Permits for 7 Homes Issued at City Hall

Building permits amounting to \$41,950 this morning, brings the total for the month up to \$570,884 and for the year, \$7,877,715. A list of permits follows:

P. W. Wilson, seven rooms, garage, 1148 North Jackson, \$ 8,000  
Lucile Lloyd Brown, five rooms, garage, 1125 Raleigh, 3,500  
Dietrich Realty Company, one-room office, northwest corner Hillcrest and Kenneth road, 250  
E. H. Miller, five rooms, 915 Monterey, 4,300  
Edwin D. Hamlin, addition, 526 North Central, 1,000  
Pacific Door & Sash Co., 6 rooms, garage, 1944 Gardena, 6,000  
Tena R. Rice, addition, 355 Hill drive, 1,000  
Mrs. A. A. Clayton, garage, 220 Hawthorne, 200  
Miss Rose York, garage, 720 North Louise, 200  
J. E. Carpenter, 4 rooms, 301 East Garfield, 1,000  
A. Weaver, four rooms, 224 Chester, 2,500  
H. L. Wills, five rooms, garage, 620 South, 4,000  
L. H. Wilson, shop, 530 West Garfield, 2,000

A permit was issued to George G. Stewart to move the building at 1655 Gardena to 1928 Gardena.

## Heads Sunday School Association 44 Years

HUNTINGTON, W. Va., Oct. 20.—A record that is believed to be unequalled in the United States has just been made by J. B. Potts of the Fifth Avenue Baptist church here, who has been relieved at his own urgent request of the presidency of the Guyanotte Baptist Sunday School Association. He has been president continuously for forty-four years, being selected each year. His resignation was presented at the annual convention recently held, and H. E. Jackson, president of the Bank of Milton, was appointed as his successor.

## Farmer Refuses to Sell Peaches Sunday

NASHVILLE, Ind., Oct. 20.—John Dobbs has a fine peach crop. Motorists who drive by the Dobbs farm in large numbers on Sunday are tempted by the luscious peaches and attempt to make purchases. But Dobbs is not tempted.

## Horses Always Ready to Rescue Autoists

MIDDLEPORT, Ohio, Oct. 20.—"Old Dobbin" continues to be a necessary aid, despite automobiles. Along the dirt road detour between Athens and Middleport farmers are credited with keeping their horses under harness constantly, so as to render prompt assistance in pulling out luckless and ignorant motorists who venture into the muddy ditches.

## Castles in Scotland Are Drug on Market

WHEELING, W. Va., Oct. 20.—Castles in Scotland are "a drug on the market," according to Rev. Dr. J. W. Giffen, Cleveland, United Presbyterian pastor, addressing those attending the Giffen family reunion at Elm Grove, a suburb, recently. Giffens from Ohio, Pennsylvania, West Virginia and Kentucky were present.

Rev. Dr. Giffen returned recently from Scotland, where he obtained data bearing upon the early history of the Giffen family. He reported finding what once was the ancestral estate of the Giffen family. For years it has been in the hands of other parties, who are credited with wanting to sell it.

Although the property ranks with the usual run of estates that surround similar ancient structures and includes from 15,000 to 50,000 acres, the place is not in demand, it was stated. The owner offered to dispose of it for \$8,000 pounds. Dr. Giffen voiced belief, however, that it might be purchased for \$20,000 cash.

## Indian Army Reform Calls Upon Reserves

SIMLA, Oct. 20.—An important innovation in the army of India is the introduction of a scheme for obligatory reserve service on the lines of the British short-service scheme. Hitherto enlistment has been for a minimum period of four years' service with the colors, followed by voluntary service with the reserves. The new scheme which applies to all Indian infantry and pioneer units except the Gurkhas and the Fourth Hazara Pioneers, involves enrollment for five years with the colors, followed by ten years with reserves. Economy and efficiency are aimed at in the new plan.

Such estates, it was pointed out, are popular with wealthy Americans, who use them for hunting lodges, having exclusive rights to the game on their respective estates.

## G. H. S. WINS FIRST LEAGUE TILT 26-0

South Pasadena Vanquished by Red and Black Warrior Eleven

By NEAL E. SOOY  
Written for The Evening News

In a fast game featured by a flock of penalties, the Glendale Union High school heavyweight football team won its first Central league fray, with South Pasadena, yesterday afternoon on the latter's grounds by the score of 26-0. Overconfidence prevented the locals from running up a bigger score, as they were unable to stop the onslaughts of the Tigers in the first part of the game.

Captain Ronny West and Howard Elliott divided up backfield honors for the day. Each crossed the fatal line twice and both were good on offensive and defensive playing. Cass and Wood played well for the home team.

Penalties were frequent, about eighteen being called during the game, with Glendale and South Pasadena on about equal terms. Off sides and holding were the two main reasons, but the worst penalty was staged when Bud Elliott, local star quarter, was put out of the game for slugging a belligerent opponent. And to add insult to injury, the locals were set back 20 yards.

**Lots of Fans Present**

The varsity had fine support back of them, more students going over there than there were Tiger rooters. In fact, it took three different yell leaders to get all of the rooters yelling, while the Orange and Black only needed one of the eminent contortionists.

South Pasadena kicked off and held Glendale for downs. The Tigers then went steadily through the locals for fifty-eight yards until they were stopped. Glendale was unable to make anything again and booted the globular. Ryan intercepted a pass and Glendale went up the field until Elliott shot over for a touchdown. He was called back, however, and a penalty of fifteen yards attached. Nevertheless, the locals took the pill up to the one-yard line where they were when the quarter ended.

**Lots of Kicks and Kicks**

It was a simple factor for Glendale to score at the start of the second. Elliott again romping over the line. He failed to convert. Glendale kicked and West hopped across the line a few minutes later. Elliott converted. Glendale kicked. South Pasadena fumbled and Horri recovered. Elliott went thirty yards and then took it over the next play. He failed to convert. South Pasadena kicked and Glendale also kicked strenuously when Bud Elliott was kicked out of the game. Walton took his place and proceeded to shift his way down the gridiron for thirty-five yards before the half ended.

Glendale kicked off in the second half and exchanged a few boots with the Tigers, after which Walton carried the ball to within two yards of the alabaster line. West smashed his way through the line. Dietrich converted. South Pasadena kicked and Dietrich brought the oval back twenty yards. The whistle rang after a few punts had been tossed around.

Little happened in the last quarter, which was shortened on account of the C. I. F. ruling which forbids running after the line. After sundown. Had it been allowed to go on, Glendale would have had another touchdown as they were steadily running their way up field.

**How They Stacked**

Glendale—Laval, left end; Dotson, left tackle; Morrison, left guard; Zaun, center; Brucker, right guard; Phillips, right tackle; Horri, right end; Elliott, quarterback; West, left halfback; Ryan, right halfback; H. Elliott, fullback.

South Pasadena—Taylor, right end; Archibald, right tackle; Richie, right guard; Greenewager, center; Cecil, left guard; McCormick, left tackle; Bauman, left end; Fugit, quarterback; Ingalsby, right halfback; Cass, left halfback; Wood, fullback.

Substitutes: Glendale—Fitz, Walton, Bradner, Denny, Dietrich, Hartman, Carver, Fannon, Gingersy.

Score by quarters:  
Glendale.....0 19 7 0—26  
South Pasadena.....0 0 0 0—0

## K. C. Team Will Play Hollywood Merchants

The Glendale Knights of Columbus baseball team will meet the Hollywood Merchants on the local lot, San Fernando and Park avenue, tomorrow, Sunday, October 21, and a fast game of ball is predicted.

Manager Doll announces that his team will represent Glendale in the San Fernando Valley Winter league that is being organized and which will include teams from Van Nuys, Lankershim, San Fernando, Hollywood, Burbank, Owensmouth, Zelzah and the Glendale K. C. If present plans are carried out the first game will be played on Sunday, October 28.

The rules of the Winter League permit each club to carry two Class A professional players, and a fast brand of ball is expected from every team in the league.

## ELK PIN SHARKS IN TWO MATCHES

Painters Beat Glendale Music Team; Neverwas Win From Furniture Co.

In the Elks bowling tournament two matches were rolled on Thursday night, between teams representing the Glendale Music company and the Painters, in one instance, and between the Neverwas aggregation and the Russell-Pierce Furniture company in the second.

The scores follow:

GLENDALE MUSIC CO.			
Player	1	2	Tl.
F. Salmacia	162	132	141 435
McBarty	141	133	163 437
P. Salmacia	159	160	165 484

## Intermediate Soccer Teams Play to Tie

The senior soccer teams of the intermediate schools clashed for the first time Friday afternoon on Wilson field and the hardest fought game of the inter-school schedule ended with a score-tie, 1 to 1. Bill Chamberlin starred for Glendale avenue; Wilson stars were Robert Heck and Frank Wykoff. Line-ups were:

Richardson L.O.F. Beatty  
Randall L.I.F. Hamilton  
Heck C. Chamberlin  
Flock R.E.F. Scheidecker  
Wykoff R.O.F. Gilman  
Shimmel L.H.B. Tuomey  
Light C.H. Greer  
Vorwerk R.H. Det  
Morgan L.G.G. Anker  
Hudson R.G.G. Grant  
Hall G.C. Meech

Subs for Glendale were Herbert Jolly, Francis Keogh and Richard Whit, for Wilson, Kent Turner. The Glendale avenue team is coached by Floyd McMaisters, Mr. Bennett coaches for Wilson. Principal Charles Merrill umpired; C. E. Willebrand refereed.

## Oxy Meets Stanford In Los Angeles Today

LOS ANGELES, Oct. 20.—Stanford's mighty football eleven invaded Southern California today for the first time this season, and tackled the Occidental grid warriors at the Los Angeles Coliseum in what was promised to be one of the toughest struggles of the season. Though Stanford entered the battle a heavy favorite and considered the game something of a good workout, Occidental was expected to make the northern warriors work for every point they may score.

Oxy is pinning its hope on its two ends—Argue and Spangler, two flashes for speed. Stanford, however, is not without an end, as Lawson, one of the southland's high school grid stars of three years ago, is at one end of the Stanford line-up this year.

## Antlered Bowlers In 2 Tournament Games

Two more games in the Elks bowling tournament were played last night on the alleys of the clubhouse on East Colorado street, the "Has-Beens" defeating the "Shiaks" by 1377 to 1274, and the "Kom-Baks" handling the "Bean-Blowers" 1388 to 1261 defeat. The scores follow:

"HAS-BEENS"			
Player	1	2	Tl.
Bode	141	143	160 444
L. Moniot	163	149	162 474

Lamberty	142	142	142 426
Totals	401	426	424 1261

## CHICK EVANS BROKE

CHICAGO, Oct. 20.—Charles Evans, golf champion, was trying hard today to find some means to prevent filing the voluntary petition in bankruptcy. In announcing he was "stone broke," Evans listed his liabilities at \$50,000.

Seven bird sanctuaries have been established in the province of Alberta, by the Canadian government in co-operation with the provincial authorities.

## One-Man Catching Staff Due To Climb In Minors Next Year

John Johnson, Subbing for Himself

John Johnson, one-man catching staff of the Scranton team in the New York-Penn league, may break into the big leagues before another season passes. He is already slated to join the Rochester International league club next spring. Both the Scranton and Rochester teams are owned by George Stallings. Johnson is Scranton's only catcher, the club using an extra man from Rochester in emergencies.

## HOW MUCH SPEED CAN MAN ENDURE?

Eddie Hearne Meets Jimmy Murphy, et al., Oct. 18 at Kansas City

By CARL L. TURNER  
For International News Service

KANSAS CITY, Oct. 18.—With the year drawing rapidly to a close and the highest honor in the motor racing world—the national championship—resting in the balance between the veteran Eddie Hearne and Jimmy Murphy, who are expected to "burn up" the board speedway here October 21 in an effort to clinch the title, the age-old question "what is the limit of physical endurance" has been revived.

Both Murphy and Hearne will drive the new 122 cubic inch displacement type single seat cars, which they say have never been "opened up" since they entered the racing world early this year. The opportunity of "opening them up" will be offered in the wooden bowl here and both will take advantage in an effort to set a new record and win the title, it has been predicted.

Just 102 years ago a number of prominent New York physicians solemnly announced that the human body was not constructed to withstand the "terrific speed of twenty miles an hour." It was on the occasion when the pioneer engineer, DeWitt Clinton, who was running the first steam train along the Hudson, announced he would increase the speed of his train fourteen to twenty miles an hour.

**Warned Against "Speed"**

The physicians were so sincere in their belief that twenty miles an hour was the limit of physical endurance they circulated a petition asking Clinton to "refrain from such a suicidal course," history records.

The Clinton increased the speed, and the effect was not disastrous, but daredevils with nerves of steel ever since have been trying to outdo their fellow men in foot races, swimming, wrestling, boxing, motor racing, motorcycle racing, and athletics of every type have taken chances with the Grim Reaper.

Death stalked on every field of physical endurance tests, records show, mowing down its toll of those who overstepped the boundary—passed the breaking point—and did not live to reap the glory.

The peak of physical endurance in bare-knuckle fighting was found by John L. Sullivan and Jake Kilrain, who boxed seventy-five rounds in their memorable battle in Mississippi. Knees sagging and arms beyond his control, Kilrain sank to the turf after three hours of fighting.

**Endurance Tested**

The London Olympic games in 1908 revealed the limit in marathon racing. A giant Finn was leading the field of 100 by yards, then at the 25-mile mark he increased his speed and fell to the ground, dead.

Charles Paddock, of Pasadena, world's champion sprinter, in setting his 9 3/5 seconds mark for 100 yards apparently reached his limit—the point beyond which he could not hope to go.

A lanky youth from Chicago attracted unusual attention not so long ago in an unrecorded field. Johnny Weismüller set first one record then another, but his fall

## WASHINGTON AND U. S. C. BATTLING

Trojans Playing in Seattle Today; Sloppy Field Is Predicted

SEATTLE, Oct. 20.—University of Washington Huskies will make another bid for football glory when they meet University of Southern California Trojans at the stadium here this afternoon. The Trojans are favored to outmaneuver Coach Bagshaw's men, but followers of the Huskies are calmly confident that the 1923 machine which Enoch Bagshaw has built will rise to the occasion and humble the highly-touted Southerners. Washington has plenty of power and speed, and the necessary poundage.

Although rain was predicted for today, a crowd of 30,000 fans are expected to be present at the game which is scheduled to start at 2:30.

Line-up:

Washington	Position	U. S. C.
Hall (c)	R. E. L.	Phythian
Petrie	R. T. L.	N. Anderson
Bellman	R. G. L.	Hawkins
Waters	C.	Rice
Bryan	L. G. R.	Earle
Kuhn	L. T. R.	Cummings
Westrom	L. E. R.	Adams
Ziel	R. H.	Newman
Wilson	L. H.	O. Anderson
Tesreau	F.	Campbell
Sherman, Abel	Q.	Dolley (c)

## GERMANY STOPS IDLE RUHR PAY

Stinnes and De Goutte on Critical Industrial Situation Today

MUNICH, Oct. 20.—Bavaria today sent a note to Berlin threatening armed resistance if the "German state attempts to violate Bavarian sovereignty."

HAILE, Germany, Oct. 20.—Thirty thousand German coal miners went on strike in the fields around Haile today.

DRESDEN, Oct. 20.—Reinforcements of Reichswehr arrived in Chemnitz and Plauen today. Premier Zeigner of Saxony, who has been defying the Berlin government, has adopted a more conciliatory attitude.

**Vibration Saved Him**

The plucky aviator says he owes his life to the motor, which forced the throttle back and slackened the speed through vibration.

"I awakened then," Lieutenant Maughan said afterward, "and landed safely. But I know I had reached the limit of my physical endurance."

Fliers in service of the air mail have spanned the continent in twenty-six hours and a few seconds. Lieutenants John Macready and Oakley Kelley were first to make a non-stop flight from Atlantic to the Pacific. Captain Lowell Smith and Lieutenant John Richter recently set a new record of continuous flight by staying in the air thirty-seven hours. This was accomplished by refueling from supply planes flying overhead—but all say their present records are their limits of physical endurance.

Perhaps the Reaper has attracted more attention to the speedways than to any other field of contest, for faster cars and more daring pilots almost daily are entering that field.

One specially designed motor in a racer piloted by Sig Haugdahl registered a speed in excess of 200 miles an hour on the Daytona Beach straightaway.

Haugdahl admits that speed is the limit of his endurance.

Jim Davis, motorcyclist, endured a strain of that sport while riding at 112 miles an hour on a board track.

Tommy Milton, champion of motor racers in 1921, says his limit of physical endurance is 125 miles an hour on a board track.

Milton is one of the two or three drivers who have attained that speed and lived to tell about it.

Milton explains that point is about where the nerve between his brain and hand snaps.

The recent death of Howard Wilcox on the Altoona (Pa.) track is cited by race track followers as an example of the truth in Milton's statement. Wilcox was killed when his car overturned. His neck was broken.

The theory also is substantiated, veteran racers say, by the death of Rosco Saries, who was burned to death when his car went off the high east curve of the Kansas City Speedway when it was dedicated in 1922.

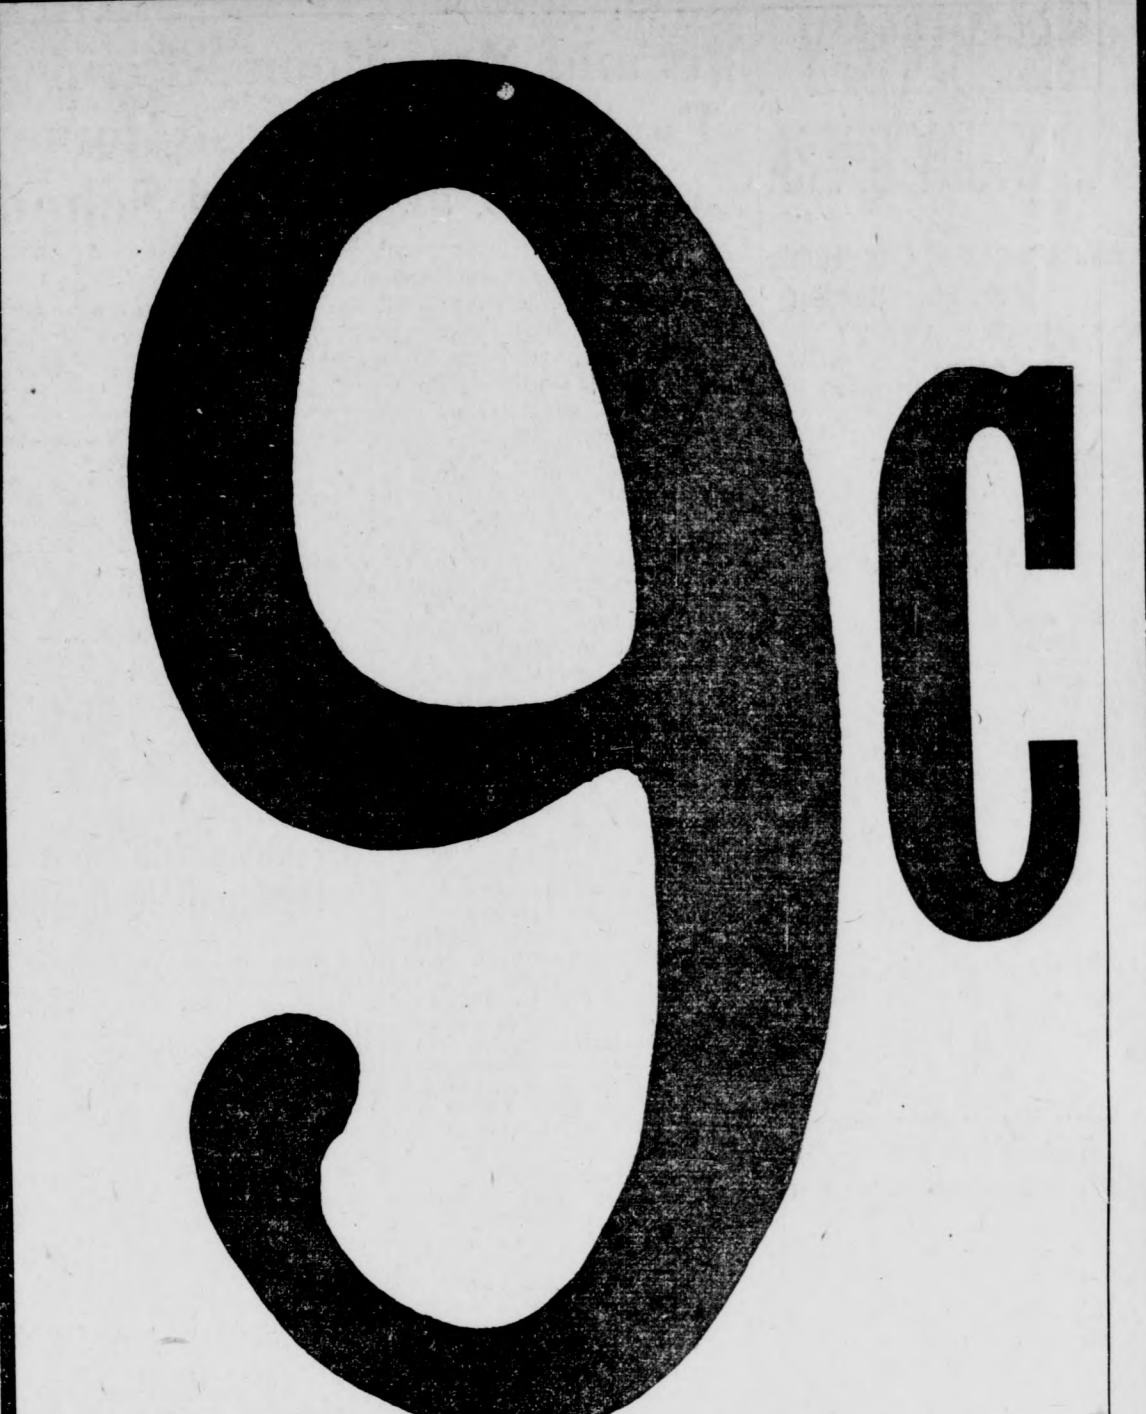

But so long as men have brains and legs they apparently will strive in the face of death to prove Milton's theory is wrong. Drivers who are entered in the classic here declare they will attempt it October 21, next Sunday.

## LIL' SAM SCORES

JERSEY CITY, N. J., Oct. 20.—Sam Langford, the Boston baby, knocked out Jim Flynn, the "Pueblo fireman," last night in the third round of their scheduled 15-round fight. Jack Johnson challenged the winner.

## FINAL TENNIS TILT

BERKELEY, Cal., Oct. 20.—The California state tennis tournament today was all but over today as winners in the semifinals, mostly favorites, prepared to play their last games before the finals. Vincent Richards is to meet Mrs. William Henry and Wallace Scott in a mixed match.

## THE GASOLINE

That Started New City Ordinances.

## K-B-K Supply Co.

1023 East Broadway, Glendale, Calif.

## Bruins Expected to Trim Oregon Aggies

BERKELEY, Cal., Oct. 20.—California Bears are expected to defeat the Oregon Aggies here this afternoon. It will be the first conference game of the season for each team.

The Bears presented their strongest line-up of the season. "Hoggy" Evans, first-string quarterback, entirely recovered from early season injuries, was preparing to call signals.

The Oregon Aggies, with a strong defensive line, but a weak offensive and backfield, only hope to hold the score down to a low point, although Coach Rutherford said that with a few breaks his team might battle the Bears to a standstill.

## Middle Class Needs More Cheap Hospitals

SAN FRANCISCO, Oct. 20.—The great American middle class are in immediate need today of cheaper hospitals where the best of care can be had at a minimum of expense, physicians here attending the third annual conference of California hospitals declared.

Prevention of patients of moderate means from patronizing non-medical practitioners, their only recourse in a great many cases because of excessive rates demanded by present day hospitals, is one of the main points discussed at the meeting.

## Gonzaga Eleven Meets Multnomah Club Team

PORTLAND, Ore., Oct. 20.—One of the largest crowds which ever witnessed an early season football game in Portland is expected today when the brilliant Gonzaga eleven from Spokane meets Multnomah club. Perfect weather prevailed and fans looked forward to a sensational game, featuring the great aerial attack of the visitors. Neither team has been defeated this season.

The University of Oregon team, victorious over Whitman yesterday at Pendleton, by a score of 21 to 0, will witness the game here today. Oregon, using but five plays, showed a remarkable early season punch. Idaho, in winning over Washington State college, 14 to 0, lived up to pregame predictions. Thirion W. S. C. carried the ball to Idaho's one-foot line, but could not score.

## SYRACUSE VS. PITTSBURG

NEW YORK, Oct. 20.—Syracuse, with one of its best teams, will face its nemesis at the Yankee stadium this afternoon—the Pittsburgh Panthers.

## SEEK RECOGNITION

ROME, Oct. 20.—The soviet has begun negotiations with the Italian government for recognition of the Russian government, it was announced here in official sources.

Haddock eat worms and are very fond of the eggs of the herring.

## THEATRES

### THE GLENDALE

"Crossed Wires," now showing at the Glendale theatre, tells the amusing story of a switchboard operator with social ambitions, and of a wild ride along the society trail, starting from the third tub in the laundry and ending in the Blue Book.

Starting Sunday, "The Drivin' Fool," a screen version of W. F. Strum's story, featuring Wally Van and Patsy Miller, comes to the Glendale theatre for a three-day run. The story tells how a speed-mad son saves his father's business from the clutches of crooks, by making a record automobile dash from California to New York in six days and delivering \$500,000 which his father had to have.

Can a high-born youth, a count who is the emperor's right-hand man, his military aide in a strict imperial government, love a peasant girl? That is the theme of "Merry-Go-Round."

### THE GATEWAY

"The Midnight Alarm," featuring Alice Calhoun, shows at the Gateway theatre for the last times today. This spectacular Vitaphone picture of fire and reconstruction of the earth, and with over 1000 players in the cast, this picture of life and love in old Vienna rivals Eric Von Stroheim's famous "Blind Husbands."

Starting Sunday, "Merry-Go-Round" comes to the Gateway Super-Jewel production with an all-star cast, including Mary Philbin and Norman Kerry. More than nine months in the making, and with over 1000 players in the cast, this picture of life and love in old Vienna rivals Eric Von Stroheim's famous "Blind Husbands."

### Hi-Y to Fete and Feast Pigskinners

Next Friday afternoon, the Glendale Union High school heavyweight football team meets Citrus Union on Moysse field. That fact in itself is very interesting to any pigskin fan. But there's another point connected with that game that will appeal to everyone. And that is—the Hi-Y football banquet that follows the scrap.

Last year the Azusa Hi-Y entertained the local varsity after the Citrus Union game. The event was going to return the compliment, and Rex Kelley who has charge of the feed, assured everyone that the food, prepared under Miss Hanson's able tutelage, will certainly touch the right spot in the life of each hungry gridiron hero.

Members of both teams, the coaches and principals of each school, and the local Hi-Y members will be the lucky ones to sit in on the meal. "Teed" Haig, Glendale Hi-Y prexy, will be toastmaster and will call on several of the care-free eaters for remarks.

### Brooks to Continue Studies In Genesis

There was a high pitch of interest in the expositions of the first chapters of Genesis which were begun last Sunday morning by Keith L. Brooks before the Presbyterian Brotherhood Bible class meeting at the city council rooms at 9:30.

Mr. Brooks sought to show that the first verse of Genesis described a primeval creation complete in itself and that the record of the six days' work described in Genesis had to do with the reconstruction of the earth following a cataclysmic judgment described in the second verse. He maintained that the six days' work was not a description of creation in the beginning. Tomorrow morning at the same hour he will begin the study of the first three days' work, showing how the earth was prepared for the habitation of man, and a new order of animal life, and how perfectly everything here described fits in with the findings of science.

### BUSINESS IS GOOD

"Much better than we had anticipated," was the response of Jesse V. Rate, vice-president and cashier of the new Federal Commercial and Savings Bank, to the question, "How's business?"

### LA FOLLETTE SICK

PARIS, Oct. 20.—United States Senator Robert M. La Follette has postponed his contemplated trip to London, because of a bad cold. He will sail from France on the liner George Washington, October 25.

## REAL ESTATE FOR SALE

### GLENDAL PROPERTY

**A RARE**  
**OPPORTUNITY**

A fine 7-room home with land  
enough surrounding it to accom-  
modate a bungalow court of eight  
units.

This 7-room home is built right  
—large living room with real fire-  
place—dining room with all built-  
ins—big bath room and kitchen—  
Breakfast room with built-in buf-  
fet, and a commodious sleeping  
porch, well built and plastered,  
with ample room for two large  
beds—all kinds of fine fruit trees,  
shrubs roses, etc., etc.

This property may easily be  
divided into a lot 65x135 sur-  
rounding the house and an L-  
shaped lot upon which a bungal-  
ow court may readily be built.

This property located within  
one block and a half of Glendale  
Ave. new car line, and is ideally  
located for income property as  
outlined. It may be purchased  
for \$13,650, with advantageous  
terms.

## A GOOD INVESTMENT

A good home—only a block  
from East Broadway, on a lot 50x  
150, going back to a 20-foot alley.  
A large cheerful living room with  
specially built book cases, a  
commodious library. A fire-  
place, etc.—Bedrooms are larger  
and much better ventilated than  
usual. Both dining room and  
kitchen are convenient and modern.  
The specially desirable fea-  
tures about this property are the  
convenient and desirable location,  
and the depth of the lot, which  
makes it especially desirable  
either for a home or two income  
properties—Then, too, the price  
is right—Only \$6550—Easy terms

## QUINN ASSUMES LEGION'S DUTIES

Staff Remains Same; Other  
Officers Elected In  
Closing Session

SAN FRANCISCO, Oct. 20.—While thousands of delegates to the fifth annual convention of the American Legion were returning to their homes today, John R. Quinn, California's "educated cowboy," formally assumed command of the organization and launched the task of carrying out the year's work as outlined by the veterans here during the week. Quinn, coming from behind in the most dramatic election in the history of the Legion, was chosen chief of the fighting men yesterday to succeed Alvin Owsley of Texas.

Quinn, a native of Porterville, California, is 34 years old. He is a veteran of the Ninety-first division, served overseas in command of Battery F of the 348th field artillery and was with the army of occupation in Germany. Quinn graduated from the University of California in 1912. He operates a ranch at Delano.

Renames Appointive Officers  
Commander Quinn re-named all of the appointive Legion officers, as follows: Lemuel Bolles, Seattle, national adjutant; Russell Creston, Indianapolis, assistant adjutant; Eben Putnam, Wellesley, Mass., historian; Robert Tyndale, Indianapolis, treasurer; Robert A. Adams, Indianapolis, adjutant.

Five vice-commanders chosen by the veterans were: Lester Albert, Idaho; C. M. Stoddard, Arizona; William B. Healey, Pennsylvania; Thurman Mann, North Carolina; and Ryan Duffy, Wisconsin.

Among the first official acts of Commander Quinn was calling of a meeting of the national executive committee in January at Indianapolis.

## Merger of Foothill Cities Is Advocated

(Continued from page 1)

for Montrose and La Crescenta to take legal action to form an incorporated city. Advocates of incorporation believe that the community will develop faster on a more solid basis and with a more intelligent regard for the needs of the future; they believe that officers elected from the ranks of local citizens are more capable of intelligently conducting local affairs by reason of daily contact with the problems they must solve; that local officials can more readily appraise conditions and foresee future requirements than the county officials, who have dozens of such communities to govern, with no personal interest or civic pride in any of them, and who must make their decisions on reports submitted, which is, under the best circumstances, regarded as an inferior method.

Many people of the Montrose-Crescenta district agree with this view, many think differently. When questioned, one man answers in the affirmative and another holds the opposite belief and each is just as sincere and honest in that belief as the other. Whatever the opinion, both sides are sincere in a desire to advance the common interest of their community.

## Union Is Favored

A majority of opinions so far heard seem to indicate that there is no division of opinion as to uniting the two districts. The difference appears to be as to whether or not the time has come for them to take the reins of government into their own hands by incorporating, making local government the issue and not the division of the two townships.

Representatives of Montrose and La Crescenta will probably be called together in the near future to discuss the matter of incorporation more fully.

Good progress is being made to secure the \$1000 for the paving of Ocean View avenue, according to reports of the special committee engaged in canvassing subscriptions. About \$600 has been pledged and subscriptions are still coming in.

The committee is soliciting from property owners along Ocean View in particular, but are urging all owners of the district to contribute something on the grounds that it is a project that will benefit the entire community.

The Montrose postoffice is being well patronized by the requests for private boxes is an indication. A number of these lock boxes have been received and sold out and a new waiting list started.

## Dance Will Increase Fire Relief Funds

The dance to be given by the Glendale Athletic club at the Hahn auditorium at 109 North Brand boulevard, in aid of the fire victims relatives, promises to net a handsome return for the relief fund, according to Lester Marston, in charge of the affair.

## UNDERGOES OPERATION

Ray Hymer, 619 Orange Grove, was operated upon for appendicitis at the Glendale Sanitarium and Hospital last night. His condition today is reported to be satisfactory.

## List of Contributors To Fire Relief Fund Steadily Increasing

And still they come!  
Checks, greenbacks and pledges!  
The fund being raised for the families of Clarence Edwards and Joseph W. McGahan, who lost their lives fighting fire last Saturday, is mounting steadily.

Readers of The Glendale Evening News are showing in a material way their sympathy for the families of the two fire heroes.

Banks of the city are authorized to receive contributions to the fund being raised through The Glendale Evening News. The list appearing in this paper will be held open for subscriptions until October 29, the tentative date for the benefit entertainment.

Subscriptions received at The Glendale Evening News office will be credited in these columns.

The committee to administer the fund is composed of Mrs. Daniel Campbell, president of the Tuesday Afternoon club; Spencer Robinson, mayor of the city of Glendale; Chalmers Wood, commander Glendale post, American Legion; W. S. Ingram, of The Glendale Evening News.

The following is the complete list of those who have subscribed through The Glendale Evening News:

## SCHOOL TEACHERS ANSWER CHARGES

Annual Convention Marked  
By Political Issue, Is  
R. D. White's Report

Superintendent R. D. White of the Glendale grammar schools, and Principal George U. Moyses of Glendale Union High school, returned Friday from Riverside where they attended the annual convention of county, city and district school superintendents.

The convention covered a period of a week and the program included many phases of school work. About 125 were present.

Will C. Wood, state superintendent, presided.

"One of the most impressive occurrences during the entire session was the passage of a strong resolution answering in detail the charges of extravagance directed at the schools contained in the governor's budget message," said Mr. White today.

Serious consideration was given to the supply, placement and training of teachers, Mr. White said. It was estimated that the state will require about 3000 new teachers annually, whereas the output of the normal schools is only about 1500.

Among the other questions discussed were trustee problems involved in recent legislation; social science courses; the school and the community; American education week—how to organize its observance; the teacher tenure law; making the school budget; savings through business management; reorganization of elementary curriculum; California textbooks; standard tests in supervision; new laws and regulations governing certification of teachers; rural supervision.

## PASSAGE OF GAS LAW PROTESTED

Dealers Address City Council  
Opposing Adoption of  
New Ordinance

Following decision of the Glendale City Council to frame an ordinance standardizing gasoline, which now sells in this city at prices ranging from 9 cents to 15 cents a gallon, the K. B. K. Supply company, 1023 East Broadway, have addressed a communication to the Council and make the following public statement:

"We, the owners of the K. B. K. Supply company, would like to say something about having an ordinance on the standardization of gasoline.

"We handle three gasolines at our station. Two pass the city ordinance of Los Angeles; the third will not pass because of its end point. Yet the gas will give a better mileage and a quicker start than most gasolines that do pass the city of Los Angeles specifications.

"A certain gas station here for several months has sold gasoline at cut prices, 2 cents below almost every other station. Now, when another station gets a gasoline which sells at a lower price than his, the owner wants the city to pass an ordinance to stop its sale.

"Let the people make their own choice. If they don't like the gasoline, that station will soon lose their business.

"Respectfully yours,

"K. B. K. SUPPLY CO.,

"C. B. Kreeger,

"H. O. Banks."

Elsewhere in this issue appears an advertisement from the K.B.K. company relative to its 9 cent gasoline.

## Giant Crane Hoists G. & M. Power Poles

No Seats Reserved  
No reservation of seats will be made for the benefit, and the number of tickets will be limited strictly to the seating capacity of the club auditorium, which will be filled, it is believed, by those who are willing to spend \$5 to witness a performance such as will be staged by the talented and costly cast that is now being secured.

The principal difficulty facing the committee is the selection of the cast from among the many performers who have offered to donate their services, and as soon as the various members have been selected their names will be announced.

## TRUCK CATCHES FIRE

A truck operated by the McKeon Canning company of Burbank narrowly escaped being burned this morning when fire originated in the carbon gas tank used for headlights, ignited the running board. The Glendale fire department sent a chemical truck to the scene, San Fernando and Harvard, which quickly extinguished the flames.

## Fire Victims Benefit Date Set for Nov. 6

(Continued from page 1)

of the highest priced stars in the theatrical profession, as well as several of the leaders in the moving picture world, on a program insures the presentation of an entertainment that will be worth much more than the price asked for the tickets, and it must be remembered, they declared, that this is a donation for the relief of the dependents of men who gave their lives that this city might be saved from destruction, and possibly an enormous death toll.

No Seats Reserved  
No reservation of seats will be made for the benefit, and the number of tickets will be limited strictly to the seating capacity of the club auditorium, which will be filled, it is believed, by those who are willing to spend \$5 to witness a performance such as will be staged by the talented and costly cast that is now being secured.

The principal difficulty facing the committee is the selection of the cast from among the many performers who have offered to donate their services, and as soon as the various members have been selected their names will be announced.

## Scots Will Stage Benefit at Circus

The entire cash receipts taken in at the matinee performance of the Scots Circus on Saturday, October 27, will be devoted to the benefit fund for the relief of the families of J. W. McGahan and Clarence Edwards, victims of the fire that ravaged the Verdugo hills last Saturday.

This decision was unanimously and enthusiastically reached at last night's meeting of the Pyramid in the Odd Fellows' hall on West Broadway, when 175 members of the order were present.

In addition to the regular circus performance, a large number of special acts will be presented, selected from among headliners of the vaudeville stage, says H. M. Bennett, toparch of Pyramid No. 39.

The regular tickets will not be good for admission to the benefit performance. Mr. Bennett states, as it is the desire of the officials of the Scots to secure as great a contribution as possible to the benefit funds.

Materially backing their support, voiced the other day, of the relief fund, the Jewish Sisterhood, through Mrs. G. Phillips,

## Little Group Adds \$20.25 to Fire Fund

One of the most recent additions to the relief fund comes from a group of Glendaleans living in the 900 block on North Louise street. These loyal citizens joined together in a contribution to the fund to aid the little family of Joseph W. McGahan and the mother of Clarence Edwards, victims of Saturday's mountain fire, and today \$20.25 is added to the relief fund through their efforts.

The donors are Mr. and Mrs. L. P. Clover, Mrs. Harry Waldron, Mrs. H. Kressman, Mr. and Mrs. Frank Townsend, Mrs. Sara M. Dunn, Mrs. Hannah Munse, Mrs. Mary M. Houseman, Mrs. Sidney Hill, Mr. and Mrs. J. J. Westrup, Mrs. F. M. Fryer, Mrs. Herman Riehl, Mrs. Emma Loud and Mr. and Mrs. Dennis Bennett.

## P.T. A. Federation Is Host at Reception

(Continued from page 1)

local control, as embodied in the Townier-Sterling bill.

"National leadership in education and the efficient administration of the educational activities of the federal government demand the creation of a department of education with a secretary in the cabinet of the president."

Another response from the teaching corps came from Normal Hayhurst, representing the High School Teachers' club.

A special feature was songs by Mayor Spencer Robinson. Accompanied by Mrs. Robinson, he sang, "Drink to Me Only With Thine Eyes" and "Believe Me If All Those Endearing Young Charms."

Continuing the musical entertainment, Corinne and Mary Ellen Fittinger, talented pupils of Glendale schools gave violin and whistling solos. Corinne plays the violin and a brilliant career has been predicted for her. She played "Hungarian Idyll" (Keler Bela) and "Kiss Me Again," and Mary Ellen whistled "Sole Mio" and "Moon Winks."

There were also selections by the Boys' Glee club.

## FLAX IN EGYPT

Flax of the highest quality has been raised in Egypt from seed that produces only a low grade of fibre in Russia.

## FLOATING CHAIRS

Chairs made of light wood covered by canvas have been invented to enable bathers to float in a sitting position in water.

## Hero's Mother Sends Thanks for Sympathy

Sincere expression of appreciation to Glendaleans and residents

## Legion Raising \$500 Fund for Widows

(Continued from page 1)

American Legion pledge not to consider politics," was a rejoinder that brought a good laugh from the crowd.

Other Highlights of Session  
Among the many highlights of the meeting, which at other times would be headline material was the resignation of Dr. W. N. Nicoles, chairman of the employment committee, who has been promoted from Glendale to Pasadena by the Pacific Telephone and Telegraph company, his position being that of wire chief in charge of their plant. City Manager W. H. Reeves, assisted by Harley G. Preston, realtor, will carry on the good work so ably attended to by Mr. Nicoles.

A committee to furnish a booth at the Scot circus was appointed with Mr. McBryde as chairman and Comrades M. J. Edwards, Grayson and Wilbur Lee assisting.

## Armistice Day Plans

An Armistice day committee was named with E. L. Sullivan, chairman, assisted by Comrades Reglin, Joseph Wilson, Cook, Wheelon, Salino and A. Bullis.

R. N. Hayes, a new member from Medford, Ore., now a resident at 638 Salem street, was introduced.

Numerous other routine matters were considered which will give Adjutant Charles G. Gibb a week's work in writing the minutes of the most enthusiastic meeting, tinged with the sorrow of the week and buoyant with plans for the future.

## Knights from Glendale Going to Los Angeles

E. S. Melzer, chancellor commander of Glendale lodge, No. 331, Knights of Pythias, will lead fifty local members to the headquarters at Ninth and Olive streets, Los Angeles, tonight, for the regular convocation of the Dramatic order, Knights of Khorsad. The meeting will be open for all Knights. Further information may be obtained from E. J. Willett, at 117 East Broadway.

## S. C. Packers Entertain Several Legionnaires

Mr. and Mrs. S. C. Packer of 362 Riverdale drive are entertaining a group of five ex-service men from Chattanooga, Tenn., en route home from the American Legion convention in San Francisco.

They are all employees of the Dixie-Portland Cement company of Chattanooga, of which Mrs. Packer's brother, Richard Hardy, is president. Mr. Hardy has a large group of ex-service men in his employ, and each year five of them are selected and their expenses paid to the national Legion gathering.

The Packers were pleased yesterday to receive a telegram from Mr. Hardy stating that he has been elected mayor of Chattanooga.

## NEW REPARATION NOTE

LONDON, Oct. 20.—The German government has prepared a new note dealing with reparations, it was revealed by the German embassy today. It may not be delivered for some time as Berlin has decided to make informal overtures to the allied capitals before handing in the communication.

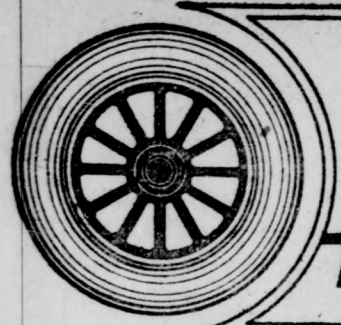

The town crier is still an established institution in towns and villages along the Rhine.

## HIGHWAYS OF STATE WILL BE HELPED BY TAXES

Money Derived From 'Gas' Taxation Goes to Make Improved Roads

The new gasoline tax became effective in California at midnight of September 30. This, as all motorists know, means the levying of a 2 cent tax per gallon on every gallon purchased, the doing away with the former yearly registration fee, which was based on the horse-power rating of each make of car, and a present flat rate of \$3 on all motor vehicles.

It has been estimated that this revised source of revenue will net the state in the neighborhood of \$18,000,000 yearly.

A study by the state engineers and officials of the tax, highway and motor situations, over a period of several years, resulted in the passage of the present law at the last session of the legislature.

During the next two fiscal years it is estimated by these men that the coffers of the state will be enriched by the tidy sum of \$37,000,000.

That the new law should work out to the benefit of both state and counties seems inevitable. When the increased source of revenue is considered, and the manner in which it is proposed that these moneys should be spent, there seems to be no question that the motor industry in the state will reap an additional harvest, due to increased buying.

Plan of Distribution  
One-half of the amount collected is to be used exclusively by the state in resurfacing, maintaining, widening and reconstructing existing highways. An equal sum is to be divided among the coun-

## Prosperity Will Continue Through Winter Months

By ALTON G. SEIBERLING  
Vice-President of the Haynes Automobile Company

Present-day prosperity is going to continue right through the fall and winter on into 1924. Our distributors and dealers, located in every section of the country, write to us that the outlook for business was never brighter, taken straight from coast to coast, from Canada to the Gulf of Mexico. People are in the spending mood. Six months ago our organization was optimistic, but at the same time there was a tendency to temporize. Now there is no restraint whatsoever in their enthusiasm over business conditions.

Reports from Iowa, for instance, freely predict that business during the next six months will be better than at any time within the last three years, as the purchasing power of the farmer will be stronger, due to the bumper crops. Business men and manufacturers in Ohio look for prosperity to reach new heights during the next six months. Continued prosperity is the word from Massachusetts, while bankers in Pennsylvania declare stability marks every avenue of trade in their territory. Montana is looking for its best fall in years, as well as the Pacific Coast States. In fact, from cities under 10,000 who depend on agriculture, to the cities of 100,000 or over who thrive by manufacturing activity, the report is the same.

## Five Million Dollars' Worth Of Autos Stolen This Year

Auto thieves are finding it more and more difficult to make a living in the southern counties of California!

The sun of the auto thief is setting, and that his activities are being curbed is the encouraging report emanating from the theft bureau of the Automobile Club of Southern California.

Club detectives engaged in rounding up thieves in the territory of the state lying between the Mexican border and Monterey county, declare that motorists are more careful in locking their cars and in keeping a weather eye out for suspicious looking characters hanging about.

As the case now stands, however, there have been approximately \$5,000,000 worth of automobiles stolen in Southern California to date this year. This figure is based on accurate information compiled by the auto club theft bureau from data secured in the thirteen counties of the southern part of the state.

A large share of this loot has been recovered from the thieves, but a portion of it is a total loss to auto owners.

Investigation of strangers renting private garages for the storage of motor cars under suspicious circumstances is urged upon all parties renting such garages. It is said that auto theft gangs are renting private garages in some of the smaller towns, where they store cars which have been stolen in the cities, until the police chase has blown over. Then they take the cars out of such "storage" and sell them at reduced prices.

That this part of America will not be a mecca for auto thieves who are driven westward from the east by cold weather, is the determination of auto club officials who have planned a strenuous drive against the activities of miscreants during November, December, and January.

## EFFORT FOR SAFETY IS SUCCESS

Campaign to Cut Down Crossing Accidents Is Displaying Results

Grade crossing casualties reportable to the Interstate Commerce Commission on the Southern Pacific lines were reduced 12.4 per cent per 1,000,000 locomotive miles during the first half of 1923, as compared with 1922, it was announced today.

This reduction in casualties, it was pointed out, is the more significant due to an increase during the year of about 27 per cent in the number of registered automobiles and trucks and a large increase in the number of non-resident automobiles touring the Pacific coast.

Southern Pacific reports show that on June 30, 1922, registered automobiles and trucks in the six states covered by its lines totaled 939,287, while on the same date this year the total was 1,110,178, an increase of 200,691, or 22.7 per cent.

Records of the State Motor Vehicle Department show that on August 1 of this year there were 40,000 non-resident automobiles in California alone, a substantial increase over the number last year. While attesting the growing popularity of California as a tourist travel, this nevertheless effects proportional increase in accident potentiality.

In commenting on the gratifying results of the campaign to reduce crossing accidents, R. J. Clancy, assistant to the general manager, said:

"Through Education  
"This result was achieved through splendid educational work by the press, schools, churches, automobile associations, Southern Pacific safety organization and employees, especially those in engine and train service. By practically all such agencies efforts were directed to education of automobile drivers in safe practices when approaching or crossing railroad tracks.

"Careless driving, however, while proportionately reduced as regards accidents per locomotive mile, or accidents per 1,000 registered automobiles correlated to locomotive miles, still obtains in a degree which urgently appeals to all agencies of education and prevention for continuous effort.

"In the first half of this year twenty-five people were killed and fifty-eight injured from trying to beat trains at crossings. Three were killed and twenty-two injured by running into trains, largely because of approaching crossings at a speed above braking power of machine or because of defective brakes. Three were killed and two injured as a result of automobile stalling on track, due to attempt of driver to shift gear when on or close to tracks.

"Drivers approaching a crossing on highways parallel with the train should be particularly watchful as it is more difficult to see trains traveling in the same direction as the automobile, and should never approach a crossing above controllable speed.

"A passenger train one-quarter of a mile from the crossing is over the crossing in less than thirty seconds, and drivers of automobiles can employ this time to no better advantage than to wait and let it pass."

## Many Motorists Have Headlights Adjusted

Public interest in the headlight campaign recently made by the Division of Motor Vehicles demonstrated clearly that motorists are desirous of having this provision of the law enforced. While possibly not more than 25,000 citations were issued by traffic officers operating from Siskiyou to San Diego in the thirty counties in which a state patrol is maintained, adjusting stations established in the same counties report that requests for adjustment were made by at least five motorists to every one cited.

The Division of Motor Vehicles, according to Will H. Marsh, chief of the division, has during the past two months established more than 450 official headlight adjusting stations. Twenty-four headlight devices have passed the California test under the new law.

Lists of those having been granted the approval of the department are now in the hands of the headlight adjusting stations throughout the state.

Valve Stems Require Regular Lubrication  
Give the valve stems a drop of oil occasionally. They are subject to severe duty and wear badly unless lubricated. Occasionally one of them squeaks, which is as plain a call for oil as could be imagined.

## CALIF. GAINS IN NUMBER OF MOTORS

September's Increase Is 17 Per Cent Over Last Year's Figures

California automobile sales are continuing to show substantial gains this autumn over those of last year.

There were 18,321 registrations of motor vehicles recorded in the state during September according to figures published in the October issue of Motor Registration News. The total is 17 per cent larger than the September 1922 volume which was 15,746.

Due probably to non-deliveries of new models and actual and expected price reductions creating a certain amount of hesitancy among buyers, last month's registration showed a falling off of 11 per cent from those of August, when 20,515 motor vehicles were registered.

South Holds Lead

Southern California maintained its leadership in total purchases. Compared with the northern part of the state, the south bought 11,081 cars and trucks and set a mark 26 per cent greater than this district bought in September, 1922. The forty-seven northern counties registered 7,300 automobiles and trucks, an increase of 5 per cent over like figures in September of last year.

Passenger car sales in the state gained 19 per cent during September. The truck business, however, fell off 1 per cent, and this drop occurred in Northern California where 810 trucks were delivered last month compared to 912 in September, 1922.

Six of the leading California counties show increased business, eight are charged with losses and one county sold a like number of cars in September of each year.

L. A. County Gain  
The biggest county gain, according to Motor News statistics, is made by Los Angeles, which had 8,906 registrations, 40 per cent more than this territory purchased twelve months ago. San Francisco county had the next largest increase, 24 per cent being the gain made by it. From the percentage standpoint, San Diego suffered more than any other, 45 per cent being its decrease.

The leading counties rank in this order for September: Los Angeles first, San Francisco second, Alameda third, Fresno fourth, Orange fifth, San Bernardino sixth, Santa Clara seventh, Sacramento eighth, San Joaquin ninth, San Diego tenth, Kern eleventh, Tulare twelfth, Santa Barbara thirteenth, Riverside fourteenth and Stanislaus fifteenth.

## Figures Show Growth of Automobile Trade

The growth of the automobile industry in the State of California is reflected in figures prepared by Will H. Marsh, Chief of the Division of Motor Vehicles for the month of September.

The 1923 registrations for that month amounted to 62,289 against 52,130 in the same month one year ago. Fees collected by the department for September of this year amounted to \$164,267, against \$138,267.25 last year.

In spite of this large increase in registrations and income the department payroll was reduced from \$28,834.95 in 1922 to \$25,503.54 in 1923 thus showing a reduction of \$3,331.41 for the month.

During the period of the past five months in comparison with the same months of 1922 the department head is able to show a decrease in payroll costs of more than \$15,000, during which time an average increase of 30 per cent in registrations and money is shown.

## Discretion Is Vital to Motoring Safety

Look out for children. Drive on the right side of the road; it's just as good as the left.

When making minor repairs, stop the car where it can be seen from both directions.

Warning signs are never put up as ornaments. Always read and obey their messages of caution. Be sure that "dimmers" really dim. It is dangerous for a motorist to drive into a blinding glare.

## I Am the Automobile

I have become, in scarcely two decades, one of the greatest industries in which men engage. My development and growth have been phenomenal. My popularity and usefulness are the marvel of the age.

I have created the travel habit because of the comfort, economy and speed which my services afford. This tends to overcome the ennui and satiety of being confined to one place with its narrow scenes and influences.

I widen the scope and radius of man's observation and environment, thus stimulating his study and enlarging his sympathy.

I bring the country dweller to the city, and take the city dweller to the country, giving to the dwellers of each a new and broader point of view.

I stimulate ambition in young and old, helping man to develop his latent possibilities and thus increase his activities by enlarging his sphere of action.

I carry the merry-makers in a luxury and an ease not purchasable by kings or potentates before my advent.

I lend comfort and dispatch to those who journey, and my the staunchness of my performance, I inspire confidence in my ability, responsiveness and endurance.

I convey the doctor on his errands of mercy, with a speed and a sureness which contribute largely to the relief of distress more quickly than before my inception.

I am the forerunner of good roads with their attendant progress. My influence is making of the country of my origin a vast park, connected by arteries of enduring concrete.

I am the miracle of the century. I am the power, the courage and tenacity. I am also proud of my ultimate users, and I here pause to give promise that my future will find new usefulness and my refinements new delights; a rosy promise, indeed, for the contemplation of my thoughtful admirers.

I am fulfilling, in a large way, the destiny so devoutly hoped for by my champions and adherents.

I am a medium of special service, or I may be but pleasure's or recreation's indispensable champion.

I am the miracle of the century.

I am a realization, in a measure, of the dreams of my creators.

I have created new possibilities and greater potentialities.

I am unique and supreme in my chosen field.

I am the Automobile.

## Increase in Registration Aids Road Improvements

There is no sign of a let-up in the purchase of motor vehicles, according to the bureau of public roads. During the first six months in 1923 there was a registration of 764,052 new motor cars and trucks. This rate of increase is about the same as that which has prevailed since 1916.

The registration in 1916 was 3,512,995 motor cars and trucks. On July 1, this year, the total registration of motor vehicles was 13,002,427. Of this number 11,571,181 were private passenger cars.

The increase in registration of motor vehicles is providing a handsome fund for road improvement. The total revenues obtained from such registration amount to over \$167,000,000 annually, and of this \$135,000,000 is applied to public highway construction and maintenance.

Gasoline tax is also getting to be a very important source of revenue for highway improvement. During the first half of the year, gasoline taxes in the sum of \$8,670,000 were collected, of which \$5,000,000 was applied to public highway work. The revenue from this source will materially increase during the last half of the year, due to the fact that California and several other states enacted gasoline taxes early in the year, to take effect July 1 or at some later date.

## Flame Shows Richness of Gasoline Mixture

When testing different gasoline mixtures by the color of the flame at the compression cocks, a rich mixture gives a red or yellow flame, while a weak mixture shows a light blue flame, almost invisible. The correct mixture is reddish blue. These colors are best studied at night or in a dark garage; they are lost in bright daylight.

## HUNDREDS OF CARS DAILY TRAVELING WESTWARD

Great Caravan Under Way From All Sections of Country, Report

Whole flocks of automobiles, as thick as quail used to be in California, are pushing westward over the trans-continental highways this month.

Such is the news just brought back by officials of the Auto Club of Southern California who have spent two weeks investigating actual highway conditions throughout New Mexico, Arizona, and the eastern part of this state.

More than 300 motor cars a day, headed westward, were passed by the club officers. Check was kept on these cars according to the state from which they were coming.

On They Come!

For instance, during one day twenty-six autos bearing Kansas license plates were encountered. There were thirty-nine coming toward this part of America from Colorado. From Ohio there were eighteen on one day and twenty-seven on a second day. Virginia contributed one auto in five days to swelling the population of the southern part of California. Michigan, Iowa, Indiana, Texas and Pennsylvania were notably heavy contributors to the congestion on the trans-continental highways.

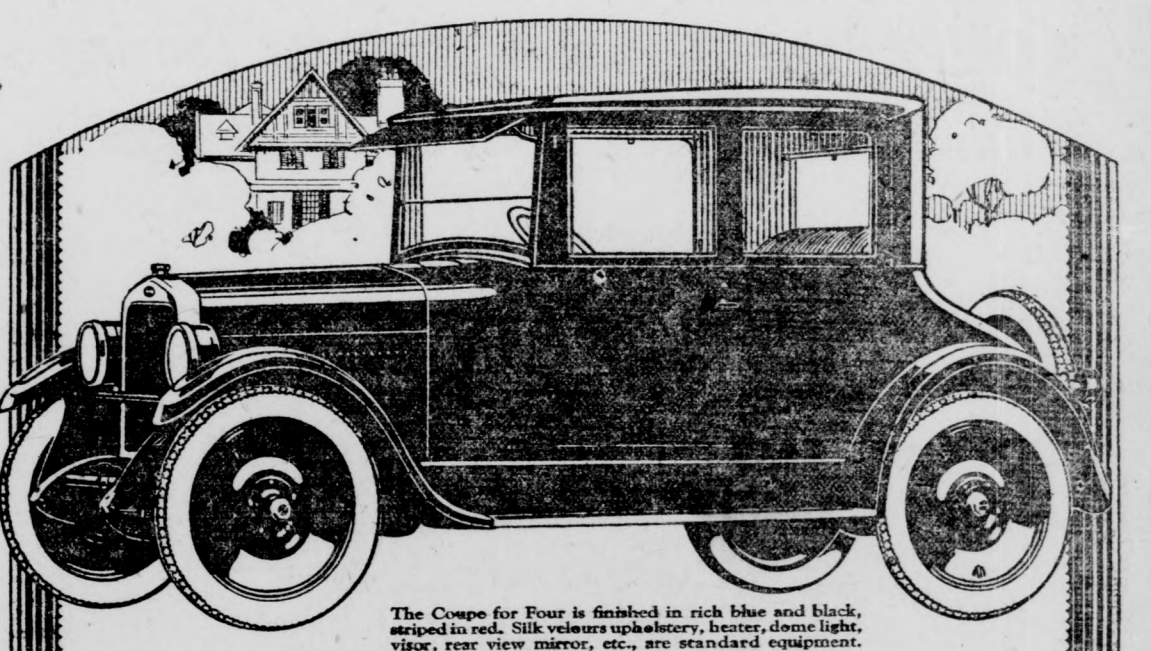

According to the report just issued by the auto club, the western terminals of the long, long trails have never been in better condition for travel than at the present time.

Actual hordes of motorists are escaping to the Pacific coast from the freeing eastern states for the winter, it is reported.

All sorts of vehicles are being used in this westward migration. They are coming in flocks, on bicycles, on motor-cycles, and in traveling palaces, and all are avidly questioning each one they pass as to industrial conditions in the southern counties of California!

## CLUTCH TROUBLE

Clutch trouble is one of the most common complaints among car owners. The clutch throwout collar needs daily lubrication, and in many cars, failure to give this even for a single day, may mean clutch trouble. Give the clutch the lubrication it needs.

The Coupe for Four is finished in rich blue and black, striped in red. Silk velours upholstery, heater, dome light, visor, rear view mirror, etc., are standard equipment.

## What Would You Expect to Pay for a Car So Fine?

Here is a Coupe of rare beauty. It has a luxurious Fisher body—complete to the smallest detail.

It has a brand new, six-cylinder engine—smoother and more powerful, and carrying a 15,000 mile performance guarantee.

It has Four-wheel Brakes—simple, tried and true. Its controls are centralized on

the steering wheel—exclusive, and remarkably convenient.

It shows a road performance, under every condition, that amazes the most critical drivers.

What would you expect to pay for this thoroughly fine car? Your guess, if based on previous values, will be wrong—for the price is only \$1345 f. o. b. factory.

The Sedan and Business Coupe are just as fine and complete as the Coupe for Four. At \$1395, and \$1195, respectively, f. o. b. factory, their values are just as convincing. Be fair with yourself and your family. See the True Blue Oakland before you buy.

Connect Spotlight  
to Electrical System

While it is not advised to connect additional apparatus to the electrical system of a car, a parking or "stop" light is permitted, as these fixtures will not consume enough current to make a serious difference in the battery's keeping charged.

When headlights are out of focus, it is not always due to the brackets being bent. Frequently it is due to the reflectors being

## TREND SWINGING TO LIGHTER CARS

Ford Sales Increases Are  
Attributed to Demand  
For Small Motors

How rapidly the trend of sentiment is swinging toward the use of the lighter motor car equipment, in order to more satisfactorily meet present day traffic conditions, is emphasized in the tremendous increase in sales of the Ford Motor Company for the first three-quarters of the present year, according to Jesse E. Smith, local agent, 115 West Colorado street.

An analysis of these sales shows that the sentiment is not alone among passenger car buyers but extends to commercial car purchasers, who are finding that the smaller motor haulage unit effects more efficient, speedy and economical delivery service.

Sales of Ford cars and trucks in the United States for the first nine months of the year totaled 1,353,020, it is just announced. This is an increase of 466,433 over the same months of 1922.

In September, alone, 141,467 Ford cars and trucks were delivered at retail, a gain of 35,929 over September last year, while truck sales for the month were 15,947, or 4,589 more than in the same month a year ago.

## OCTOBER'S SALES SET NEW RECORD

Studebaker Figures Reveal  
Striking Advance in  
Packer's Business

Sales records in the Packer Auto Company, 245 South Brand boulevard, Studebaker agents, are away ahead of any other month in the firm's history, according to figures given out by R. L. Conover, sales manager, who declares that, if deliveries are maintained at the present rate for the rest of this month, October, 1923, will see a record that has never before been approached.

"With the slowing down of sales in eastern cities," Mr. Conover says, "California is getting larger shipments of cars, and the Packer Auto Company is getting its proportionate share of these shipments. The Special Sixes especially are coming through in such quantities that we are able to meet the more pressing demands of our clients, and we can make quick deliveries on all other models."

The firm has purchased a lot in Eagle Rock on which Stephen C. Packer intends to erect a sales agency and garage in the near future, and changes that have been made in the management of the Van Nuys branch have worked out profitably for that office.

A new member of the sales force here is Wayne Vans, who has been a resident of Eagle Rock for twelve years and who has been connected with Los Angeles county for several years past.

Volume of Sales Entitles Car  
To Choice Location in  
Automobile Show

Chevrolet cars have been assigned second place in the choice of locations in the National Automobile Show, opening in New York in January, 1924, according to a letter received by C. L. Smith, local distributor, Orange and Colorado streets.

In explaining the honor accorded Chevrolet Mr. Smith says: "The motor cars exhibited at the National Automobile shows are assigned to their places by an election, in which dollars are the ballots. The honor of first place goes to that car for which purchasers have paid the largest total amount of money for the preceding twelve months, ending June 30."

"At the New York Automobile Show in January, 1924, three of the divisions of General Motors will have leading places. Buick for the sixth consecutive year will have the first place. Chevrolet will have the second place, and Cadillac the sixth. The drawings for space were made at the National Automobile Chamber of Commerce in New York, October 4."

## DATA WORTH WHILE

The best way to determine the efficiency of an automobile or tires is to keep a record of the mileage on gasoline and oil consumption and tire wear. Working conditions will be shown by comparing records month by month, or year by year.

Police and county motorcycle officers throughout California have been conducting night raids and many hundreds of cards have been issued to car owners warning them to have their headlights tested and secure such lenses as the law declares legal.

"We are daily receiving inquiries in our electrical department about the new headlight laws," says C. H. Rondebush, local manager of the Western Auto Supply company, "and many questions are being asked in regards to the proper lens with which the car should be fitted. We have chosen the MacBeth and Liberty lens to sell to our customers, as we feel that these two popular makes will give greater lighting efficiency and yet meet all the requirements of the law."

The MacBeth lens is fitted with a green visor that tends to eliminate the glare and cast the rays of light upon the road in such a manner that all the light is utilized.

## Meets Law's Demands

The Liberty lens was designed to meet the requirements of the law, and in addition to use all the available light in an efficient manner. The front of the lens is divided into six perpendicular recesses, which spread the beam of light so that the most abrupt turns can be made with safety. Seven transverse prisms on the rear face of the lens bend the light accurately, so that the rays pass under a line forty-two inches from the ground, measured seventy-five feet from the front of the car, thus meeting the requirements of the law. Briefly summarizing the performances of the Liberty lens, we might say that they eliminate all glare, give a long range of lighting and afford splendid side lighting so necessary to driving safely.

"The popularity of these lenses is evidenced by the fact that many of the leading car manufacturers are using them as standard equipment."

## DIVIDENDS PAID BY RICKENBACKER

Company Authorizes Paying  
Of 2 Per Cent on Stock  
Of Organization

Owners of Rickenbacker stock are congratulating themselves these days on the wisdom of their investment, and owners of the popular make of automobile can feel a renewed confidence in the stability of the company which manufactured their car.

At a meeting of the board of directors of the Rickenbacker Motor Company, in Detroit, a 2 per cent dividend was declared, payable October 15, on all stock of record as of September 30.

"This is the third quarterly dividend declared by this company this year, 1923," says Lewis F. Reed, local agent, 107 East Colorado street.

"This favorable condition of affairs at the Rickenbacker factory is, of course, partly due to the extremely prosperous condition of the automobile business at the present time," says Mr. Reed, "but the absolutely unprecedented flood of orders that have lately poured in on the factory are largely the result of the recent announcement that the new Rickenbacker models will be equipped with four wheel brakes."

"Present traffic conditions are forcing the adoption of four wheel brakes as a precaution towards ordinary safety, and with four years of experimenting on and testing of this wonderful improvement behind them the Rickenbacker company is prepared to supply the automobile trade with what has become an absolute necessity, of course, to the greater profit of their stockholders."

## USE OF BRAKES

An operator of an automobile should rarely use his brakes, except for an emergency stop or on a hill. Learn to judge the distance and allow the car to coast to the point where the stop is to be made. This saves the brake linings and joints in the brake mechanism so they will last almost indefinitely.

## GOOD INSULATION

All wiring, whether of the single or double system, should be perfectly insulated from all metal parts of the car.

## Improved Auto Camps Required, Is Claimed

If the southern counties of California are to maintain a permanent position as the foremost motoring area in America, they must see that their auto camps are in first class condition for the winter.

Officials of the Automobile Club of Southern California point out that this part of the country is the mecca for motorists who have planned their visits here for a number of years, and they have fondly come to expect everything to be perfect in Southern California.

Practically every community is actively planning to make their individual auto camp the very best on the continent. Enlargements of municipal camps are scheduled throughout the southern part of the state. In Los Angeles an investigation is being conducted at the present time looking toward the opening of a new and thoroughly adequate camping ground. In many other cities of the southern counties, new camps are planned.

These communities which as yet do not boast of auto camps for the convenience of motoring visitors who wish to spend a short time in the open, are looking toward the establishment of such accommodations.

The auto club points out that

large numbers of the motoring parties which tour across the continent have accustomed themselves to camping out-of-doors, and all along the various roads they have found splendid camps, so that they look for equally as good sites, if not better, in Southern California.

# Ford New Prices

Effective October 2, the Ford Motor Company  
announces the following reduced prices on all  
Ford Cars and Trucks:

Runabout	-	\$265.00
Touring Car	-	295.00
Coupe	-	525.00
Four-Door Sedan	-	685.00
Chassis	-	230.00
Truck Chassis	-	370.00

All Prices F. O. B. Detroit

These are the lowest prices in all Ford history.  
With the recent changes and refinements that  
have been made in every body type, Ford Cars  
now offer new values in motor transportation.  
Especially is this true of the new Four-door  
Sedan with its streamline body and many  
added conveniences.

### The Fordson Tractor

The price of the Fordson Tractor has been in-  
creased \$25.00, making the present price  
\$420.00 F. O. B. Detroit.

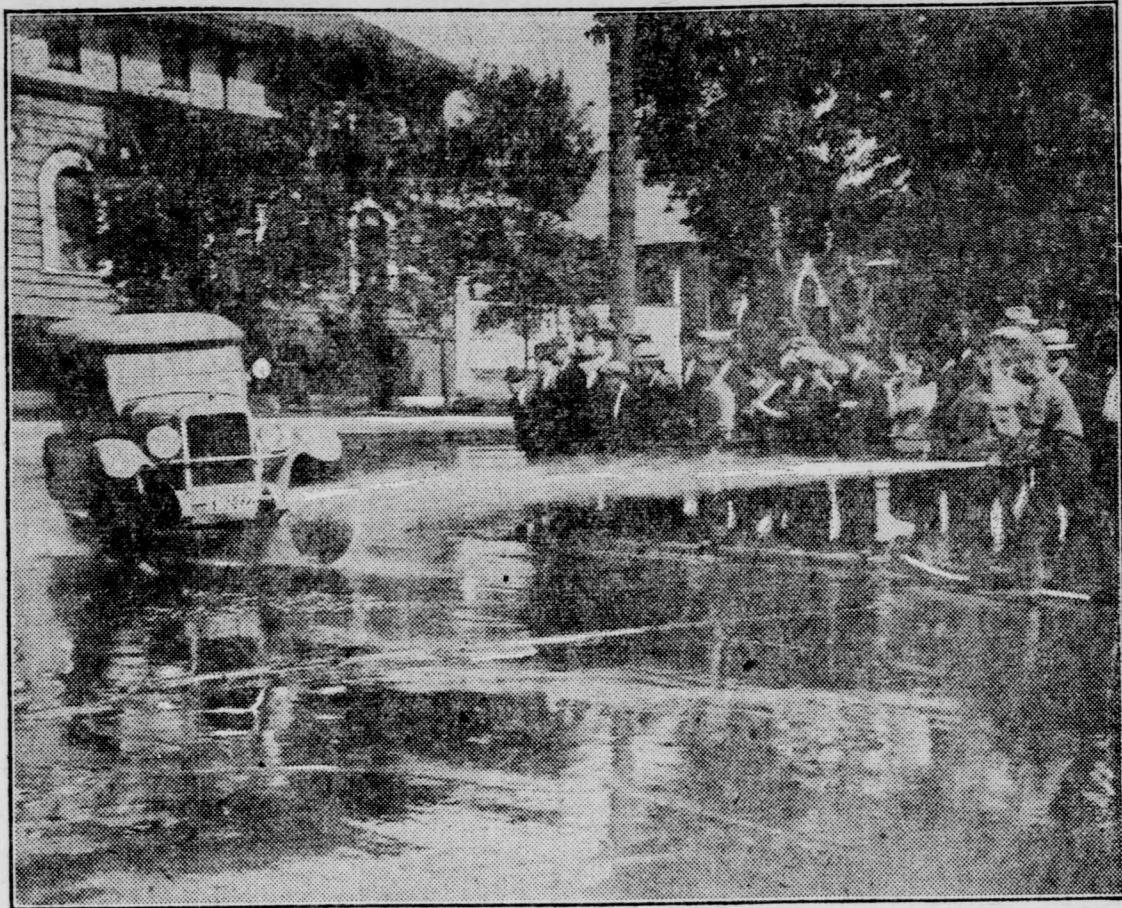

You can take advantage of these new prices  
through the Ford Weekly Purchase Plan

## FOUR-WHEEL BRAKE TESTS CONVINCE MAYOR

Motorists Watch Oakland Exhibition On Streets of Glendale

Here is the new Oakland 6-54 rounding a wet corner at 35 miles an hour and coming to a dead stop even with the line shown across the pavement in the foreground.

### Same Plugs Needed In Car, Is Claimed

It is always a good plan for a  
motorist to use the same kind of  
spark plugs which come equipped  
with the car. The reason is that  
the positions of these points are  
such as to give the best results.  
Some plugs will not reach far  
enough into the firing chamber to  
ignite the gas vapor quickly  
enough; others will reach in so  
far as to actually touch the top of  
the piston.

### Data Being Sought On Operation Costs

At the request of the United  
States Bureau of Public Roads  
and the National Research Coun-  
cil, data regarding the cost of  
operation of motor vehicles in  
various sections of the country  
and on various types of roads are  
being gathered by the American  
Automobile Association and its  
affiliated clubs.

Mayor Spencer Robinson, who  
was one of the official observa-  
tion party that rode in the Oak-  
land True Blue Traveler yester-  
day when the tests of the Oak-  
land Four Wheel Brakes were  
made at the corner of Orange and  
Harvard streets, and which were  
witnessed by hundreds of people,  
admits that he got a tremendous  
kick out of the exhibition the  
first time Clay Risser, the driver,  
brought the car to a sudden halt,  
but, after the same performance  
had been staged two or three  
times, he regained his breath and  
his confidence in the power of the  
brakes to hold on any kind of  
pavement, wet or dry, and he  
settled back to enjoy the tests.

The car used in yesterday's  
tests had been driven across the  
continent from Pontiac, Mich.,  
the home of the Oakland, and  
showed up in Glendale in perfect  
mechanical condition, according  
to Thomas E. Ricketts, manager  
of the Oakland Sales & Service,  
219 West Colorado street, local  
distributor for Oakland cars.

## BUICK MAINTAINS HOLD ON PUBLIC

Positions In Autoists' Favor  
Earned by Car's Merit,  
Declares Galvin

"Well on its way toward the  
two-million mark in production,  
Buick is firmly entrenched as the  
Standard of Comparison, in per-  
formance, in beauty, in comfort  
and in safety. This position is one  
that has been given to Buick by  
the public by the sincere tribute  
of buying Buick cars in prefer-  
ence to other makes. It is a hard-  
earned position and one which is  
so precious that Buick would  
never consider any action which  
would endanger it," says Ray L.  
Galvin, sales manager of Tanner  
& Hall, 237 South Brand boulev-  
ard, local Buick agents.

"Motorists, after twenty years,  
know that this is true. They know  
that when Buick introduces an  
improvement it is a tried and  
proven one, with a definite need  
for its introduction and with an  
application that is fine because it is  
practical. Any effort on the part  
of less successful interests to de-  
tract from such a reputation is a  
burlesque which the public views  
with a sense of humor. It calls  
attention to Buick's strongest sell-  
ing points and plays its part in  
the tremendous sale of Buick  
Vale-in-Head motor cars in every  
section of the country today."

## VERSATILITY OF CHAMPION SHOWN

New Overland's Possibilities  
Explained by Glendale  
Distributor

The new Overland Champion is  
having a warm reception on the  
Pacific coast. Willys-Overland  
show rooms are filled these days  
with interested and curious crowds  
to see for themselves what man-  
ner of automobile it is that its  
maker should claim for it that it  
is "America's only versatile car."  
"Both the front and rear seats  
of the Champion are made in  
three pieces, the stool or wooden  
frame on which the cushions rest,  
the cushions and the backs," says  
George T. Smith, of Smith-Sloan,  
Inc., 228 South Brand boulevard,  
local distributors. "All these  
pieces are readily removable. It  
takes just about sixty seconds to  
clear the car. Then by laying the  
cushions on the floor of the car in  
much the same way that a porter  
makes up a Pullman berth a  
springy, comfortable bed for two  
is arranged. Six-footers can  
stretch out full length for a good  
night's rest in this cozy covered  
couch. The need for tents and a  
lot of other cumbersome equip-  
ment is obviated for the outdoor  
enthusiast."

## PROPERLY LINED BRAKE EFFECTIVE

Proper Adjustment Insures  
Power Sufficient for  
Average Motorist

"The even, positive grip of a  
properly adjusted two-wheel brake  
is powerful enough for the aver-  
age motorist," declares Lee M.  
Fitzhugh, 120 South Maryland  
street, an expert in this phase of a  
car's mechanism. "The principal  
need is to see that the brakes are  
properly lined with the right kind  
of material and that they are  
evenly adjusted."

"Brake lining is made of as-  
bestos fibre, twisted into coarse  
thread and woven into bands,  
which are impregnated with a so-  
lution to give toughness and du-  
rability," continued Mr. Fitzhugh.  
"These bands are fastened to a  
steel brake band by rivets, and if  
these rivets are not counter sunk,  
the heads will touch the brake  
drum and the value of the brake  
will be lost. In this shop we use  
only soft, hollow copper rivets,  
countersunk so that they cannot  
touch the drum."

"Brakes fastened in this man-  
ner and properly adjusted give an  
even, positive grip and a com-  
plete set costs less than one ac-  
cident would cost a driver, so I do  
not see any excuse for any motor-  
ist failing to make the action of  
his brakes as positive as possible  
by having them properly lined and  
adjusted."

## HIGHWAYS WILL GET 'GAS' TAXES

Large Sums Will Be Used  
for Road Improvements  
Throughout States

(Continued from page 1)  
ties where similar improvements  
in county road systems are badly  
needed.

That the new law is the nearest  
to being a fair distribution of  
individual tax to cover road costs,  
is the opinion of those who have  
made an intensive study of this  
subject. It approaches more nearly  
the electricity and gas meters in  
general use than any other  
method of fair tax. It also seems  
entirely just in this, that the heav-  
ier and faster vehicles must pay  
more than the lighter and slower  
ones. Taking into consideration  
the wear and tear on highways is  
caused by weight and speed of  
motor vehicles, it seems the only  
way to work out justly the solu-  
tion of motor tax.

**Weight Tax**  
The destruction by busses and  
heavy duty trucks is taken into  
further consideration by the "Cal-  
ifornia Vehicle Act," which pro-  
vides a weight tax for certain ve-  
hicles carrying passengers and  
hauling materials or property, de-  
pending on the amount of the  
vehicle laden and the nature of  
the tire equipment.

Foresight has been used in col-  
lecting this tax in that it will be  
collected from the producer or dis-  
tributor, as defined in the act,  
thus reducing to the state the ex-  
pense of collecting the tax and  
making it more convenient for the  
motorists.

**Paid Quarterly**  
Distributors are required to  
keep such records as the State  
Board of Equalization may re-  
quire and make payments of the  
tax quarterly.

The first payment comes due on  
December 31 of this year.

In the matter of distribution  
between state and counties, the  
counties are to receive their share  
in proportion to the ratio of vehi-  
cles registered in that county  
bears to the total in the state.  
These moneys, given to the coun-  
ty by the state, must be used ex-  
clusively for road maintenance or  
construction.

Gasoline purchased for other

# Rickenbacker

A CAR WORTHY OF ITS NAME

## Who Said So—?

A few manufacturers, caught  
between the devil and the  
deep blue sea, have finally  
climbed out onto one horn of  
the dilemma and announced  
that their "1924 models"  
(whatever that may mean!)  
will not have 4-Wheel Brakes.

Now they haven't a word to say  
in the matter!

The automobile buyer will tell  
them just what they will do—  
whether or not it is what they  
want to do.

And the informed buyer has  
decided he wants 4-Wheel  
Brakes.

The buyer always has told the  
maker what he must do.

And his word is law.

Every improvement ever made  
was at the instance and on  
the insistence, of the user—  
not the kind-heartedness of  
the maker.

For example, when a buyer first  
saw a car with "fore doors,"  
he exclaimed: "I want that!"

Some makers loudly proclaimed  
that it was "impractical" to  
put doors on the front com-  
partment of a touring car or  
a roadster.

Then a few months later, some  
manufacturers made bonfires  
of thousands of bodies of the  
obsolete type!

When the buyer saw the first  
car equipped with a magneto  
in place of dry cells, he ex-  
claimed: "I want that."  
And, though some makers  
argued and explained and  
protested—they finally had to  
give it to him.

Then the self-starter came  
along.

Some of the early types were  
imperfect. One or two did  
crank the car, however—see-  
ing which the buyer forth-  
with refused to break any  
more of his arms!

Can you imagine that any  
maker ever argued against a  
self-starter.

Indeed they did!

There were "Tag-Alongs" in  
those days, also.

So heated were the arguments  
pro and con when that revo-  
lutionary improvement in a  
motor car came along—the  
present controversy over  
4-wheel brakes is mild by  
comparison.

And now—history is repeating  
itself.

Traffic conditions and rapidly  
multiplying accidents de-  
mand greater safety for pe-  
destrians as well as motorists.

4-Wheel Brakes have proved  
the greatest safety device ever  
built into a motor car.  
There's no gainsaying that  
for "a demonstration is a  
revelation."

More than 1,000 per day of  
4-Wheel Brake Cars are going  
into the hands of users.

No propaganda can offset the  
story those cars will tell—no  
argument offset the safety  
factor they will demonstrate  
in actual everyday use.

Having ridden in—driven—hav-  
ing put 4-Wheel Brakes to  
every test that his experience  
as well as his imagination  
could suggest, the buyer now  
exclaims, "I want that!"

And no maker is powerful  
enough to deny him.

So we move to amend that  
statement to read:—

"Those '1925' models will have  
4-Wheel Brakes."

—and there's neither law nor  
precedent to prevent that  
'1925' model replacing the  
present one early in 1924.

# Four Wheel Brakes

LEWIS F. REED

Tujunga and Montrose

purposes than motor vehicles,  
such as farm tractors, motor  
boats, stationary engines, etc.,  
does not come under the new rul-  
ing. Persons buying gas for these  
uses will, upon properly filled out  
affidavits, receive a rebate from  
the state.  
Statistics in motor circles show  
that 6,200 miles is the average  
yearly travel of the California mo-  
torist. Figured at an average of  
twelve miles to the gallon, it will  
cost the motorist approximately  
\$10.34, and with the \$3 annual  
flat rate tax will bring it to \$13.34  
yearly.

### WORTH SOMETHING

When adjusting the vibrator, it  
is important that the high tension  
wire be connected to the spark  
plug, otherwise the coil may be  
damaged by the burning of the  
insulation.

## Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad.

TODAY—Poincare Is Real "Strong Man."

By HARRY R. FLORY.  
For International News Service.

PARIS, Oct. 19.—Being the "Strong Man of Europe" is not a job for a physical weakling.

Witness the task of Premier Raymond Poincare of France now, with the successful outcome of the "Ruhr Battle," more than any other statesman entitled to the sobriquet that once was claimed by Lloyd George.

If M. Poincare could be quoted directly he would undoubtedly say that his war-time experience as President of the French Republic was not one-fifth as exacting as his after-the-war experience as Prime Minister.

M. Poincare's working day begins at 7 o'clock in the morning, with a swift but careful perusal of the morning papers at the same time he is partaking of his "petit dejeuner."

Never later than 9 o'clock, and sometimes much earlier, he is at his desk at the Quai d'Orsay, in the unostentatious gray stone structure on the left bank of the Seine, from which France's foreign affairs are managed.

Interminable conference with heads of departments, secretaries, foreign diplomats and others, reading voluminous reports and meetings with his Cabinet take up many hours of every day. Between times M. Poincare finds the opportunity personally to dictate 250 letters daily.

Lunch is quite often an official function, when the Premier pays homage to visiting statesmen. Almost every Saturday and Sunday he travels from 100 to 500 miles, making from two to twelve addresses in almost as many different cities and towns.

They are not impromptu affairs and not week-after-week repetitions of the same thing, but well thought out, informative addresses which require much research in preparation.

Even on the few occasions when the Premier is able to go to his country home he keeps closely in touch with his co-workers at the Quai d'Orsay and often does as much work as if he were at his regular desk.

## On the Spur of the Moment

By ROY K. MOULTON

### THE HOUSE ON THE HILLS

"Over the hills to the poorhouse!"

The story of sin.

And always good for a sob,

And losing the family job.

In the days of the Eighties and

Nineties this epic brought

many a weep.

The House on the Hills

Where the State pays the bills

And the slumbering conscience

sleeps deep.

"Over the hills to the roadhouse,"

is the way that they sing

it today.

With a flask on the hip

And a song on the lip

And only bootleggers to pay.

From the year Nineteen Hundred

and Nineteen to Nineteen

Twenty and Three,

The House on the Hills

With its illicit stills

Has been plenty sufficient for me.

One scientist says "love is a

solvent." If that is true, then

marriage must be an insolvent.

## HINTS FOR THE MOTORIST

by ALBERT L. CLOUGH  
Editor Motor Service Bureau Review of Reviews

### THE "DOUGHNUT" TIRE

Bigger Tires, Less Highly Inflated, Are a Possibility

Everyone knows how much easier his car rides and how much less it rattles when its tires are underinflated than when they are pumped up to the full recommended pressure, and most motorists will recall the more comfortable results they obtained when they changed from the stiff-walled and highly inflated fabric tire to the more flexibly constructed cord tire, with its somewhat lower inflation pressure, as they also will show the better riding qualities of oversize tires. Everybody would like to ride on tires containing air at low pressure, to secure the superior cushioning effect resulting from their more complete absorption of road irregularities, but this cannot be done, economically speaking, under existing tire practice. With the tire sections now used, high inflation pressures must be employed or they will flatten excessively under load, and in so doing will be exposed to excessive bending, which will cause premature failure of the tread, separation, failure of the materials themselves and early blowouts, especially as the thick carcass required to withstand the necessitated high internal pressure are ill adapted long to resist acute bending. Apparently, if the advantages of low air pressure are to be secured, larger cross sections must be used to support the load, without prohibitive bending, but fortunately the carcass may be made thinner, because of the lowered internal pressure, and will successfully resist a degree of bending in excess of what a thick-walled tire will stand. Tire manufacturers have for some time past been working upon the problem of the "air cushion" tire—jocularly known by the name used in the title of this article, and considerable experimenting has been done with thin, flexible walled tires of sectional diameters exceeding existing ones, but inflated to pressures not over thirty-five pounds per square inch, and it looks as though the commercial production of such tires might soon be expected. To just what extreme the movement toward big tires and low pressures may go cannot be forecasted, but it seems pretty certain that the future will witness a substantial development along these lines. Testimony regarding performance of these air-cushion tires is to the effect that they enable a car to be driven fast over rough roads without "shaking up" the passengers; that rattles and squeaks are suppressed; that they are not wasteful of power and show creditable mileage and freedom from punctures, and furthermore that they transmit braking effort very effectively and do not conduce to skidding. On the other hand, they may make steering somewhat more laborious, especially when maneuvering in close quarters, and they raise a lot of dust on sandy roads.

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

the circus." Ford Sterling, the actor-director, remarked the other day at Hollywood. "I'm an honest-to-God trouper and proud of it."

"I was the original Zeno, the boy clown, and with all that, but my first turn was with a one-ring circus that was just about able to make its jumps."

"As my professional name commenced with the last letter in the alphabet I was last on the payroll, and about half the time the cash ran out before they got to me. I stayed on for I was getting my beans and some money every once in a while."

"The next season came and I was up against it, after a long, hard winter, so I wired for a ticket, got it and reported."

"Glad to see you, Zeno," the boss told me as he shook hands. "You go on the payroll beginning today."

"Zeno, your grandma," I answered. "I go on that payroll as Ajax this year."—Everybody's.

PREVENTS EARLY BLOOM

To prevent trees blossoming prematurely in late springs a device has been invented with which their trunks can be kept surrounded by a ring of cold water.

"I came to the theatre by way of an old-time medicine show and

oil bleeder, between the two blocks, does not throw oil. The pump has been turned independently of the engine and seems to give full pressure, and the pump drive has been tested and shown to be positive. What do you think causes the failure of pressure in the system?

Answer: One thing that may cause it is the holding open of the oil relief valve, when it should be nearly or entirely seated. If this happens, the oil is by-passed back to the crank case and very little pressure, if any, is developed in the system. If the valve sticks when raised from its seat, or if it is held open, at times, by solid material accidentally pressed into the oil pressure will not build up. You better examine this valve very carefully, clean it and see that it works freely. Of course, if air enters the pump it would prevent its action and no oil would be moved.

PREVENTS EARLY BLOOM

## Uncle Wiggily Bedtime Stories

— BY HOWARD R. GARIS —

UNCLE WIGGILY AND THE CLOTHES LINE

"Uncle Wiggily, I am going to do a very funny thing," said Nurse Jane. Fuzzy Wuzzy to the rabbit gentleman one morning.

"What are you going to do—sing, dance or make queer faces?" asked Mr. Longears.

"Pooh! Nonsense! As if I ever did any of those things!" exclaimed the muskrat lady housekeeper. "I mean I am going to wash Saturday."

"Wash Saturday? Do you mean it has a dirty face, or something like that?" chuckled the rabbit.

"I didn't know you could wash one of the days of the week," said Oh, you are a tease!" sighed Miss Fuzzy Wuzzy. "I mean I am going to wash some clothes on Saturday—that's today."

"That's different!" said Uncle Wiggily. "Why didn't you say so at first? Well, do you want me to go to the store for some soap?"

"I wish you'd go off and look for an adventure and not tease me!" begged Nurse Jane. "I am washing on Saturday because I expect company on Monday. And all I ask of you is to string up the clothes line for me."

"I'll do that!" promised Uncle Wiggily.

So the rabbit gentleman went in the laundry where the clothes line was kept neatly coiled up. Taking the line over his paw, Uncle Wiggily started out to the yard with it. Near the laundry door he saw a bag of clothes-pins.

"I'll take these out and leave them on the grass for Nurse Jane," he said. "I won't tease her any more about washing the face of the clock or anything like that."

Now it was about this time that the Skilley Scallery Alligator with humps on his tail set out from his den in the swamp to go out looking for ears to nibble. And the Gator had not gone very far before he met the Bob Cat.

"Where are you going?" asked the Bob Cat of the Gator.

"I'm looking for ears to nibble," said the Gator.

"Good! So am I," said the Bob Cat. "And I know where Uncle Wiggily is at this moment."

"Where is he?" asked the Gator.

"He's out in the garden, hanging up the clothes," said the Bob Cat.

"Then I'll come along and nibble off his nose," sang the Gator.

"No, no! Not his nose—his ears!" snarled the Bob Cat.

"Oh, I only said that to make a rhyme like in Mother Goose," laughed the Gator. "You're right, we'll nibble his ears. But how do you know he is in the garden hanging up the clothes?"

"I saw him with the clothes line from the top of the hill as I looked down a while ago," exclaimed the Bob Cat. "Come on!"

So the Alligator and the Bob Cat went along together. The Bob Cat wasn't exactly right about Uncle Wiggily hanging out the clothes. He was just putting up the line, but it was near enough.

"Now, Gator," said the Bob Cat to the hump-tailed chap as they came near the hollow stump bungalow, "you hide down in the far end of Uncle Wiggily's yard and I'll wait around the other end. Between us we shall catch him."

"Very good," whispered the Gator, though I call it very bad. The Alligator hid himself in the tall weeds near one clothes post. The Bob Cat slunk around to get in the front gate. But there was a tangle in the clothes line and it took Uncle Wiggily so long to take the tangle out that the Gator got tired of waiting and fell asleep in the tall weeds. And the bunny gentleman, coming up softly to tie one end of the clothes line to the post, saw the bad chap.

"Ah, ha!" thought Uncle Wiggily. "The Gator hid there to catch me. But he's asleep. I'll wind the clothes line around him and bind him fast to the post."

So very softly the bunny wound the line loosely around the Gator, intending to pull it tight in a minute and have him fast. But as Uncle Wiggily was getting ready to pull on the loose end of the line into the yard came the Bob Cat.

"Ah, ha! Now I have you!" howled the Bob Cat.

"Wait!" cried Uncle Wiggily. "Before you nibble my ears pull on this end of the clothes line."

"All right," agreed the Bob Cat. "I'll help you string the line and then I'll nibble your ears," for the Bob Cat knew nothing about the line around the Gator.

"Very good," whispered the Gator, though I call it very bad. The Alligator hid himself in the tall weeds near one clothes post. The Bob Cat slunk around to get in the front gate. But there was a tangle in the clothes line and it took Uncle Wiggily so long to take the tangle out that the Gator got tired of waiting and fell asleep in the tall weeds. ## Diet and Health

By Lulu Hunt Peters, M.D.  
Author of "Diet and Health, with Key to the Calories"

**TABLE OF FEEDING FOR THE 18TH TO 36TH MONTHS**  
Yesterday I gave you the table for feeding the baby from the fifth month to eighteen months. If you missed it, get yesterday's paper right away, for we haven't these tables to mail you from my office.

(Calories, 1,000 to 1,250 per day. See note over yesterday's table.)

Breakfast, 7 to 7:30 A. M.—Same as fifteenth to eighteenth month. ADD one to two slices of partially crisped broiled bacon or three times a week, when egg is not given. (Some physicians advise this earlier—by the twelfth or fifteenth month.) Any fresh fruit, or stewed; fresh preferably. Dinner, 12 M.—Same as fifteenth to eighteenth months. Cooked vegetables, one-half cupful or more by 2½ years. You can begin giving baby tender raw vegetables, ground fine, when his chewing teeth are in; increase gradually to three or four level tablespoonsful by his thirty-sixth month. He may also have creamed soups instead of milk, or vegetable soups.

You can also give him other tender meats, not more than three or four level tablespoonsful, and NO fried or greasy meats. The glandular organs, such as sweetbreads, liver, brains, etc., are especially good because they contain vitamins and a high grade of protein. Make baby chew well.

Add simple desserts such as custards, rice, cornstarch, tapioca, junket, etc., simple cakes, cookies by the twenty-second month. NO CANDY.

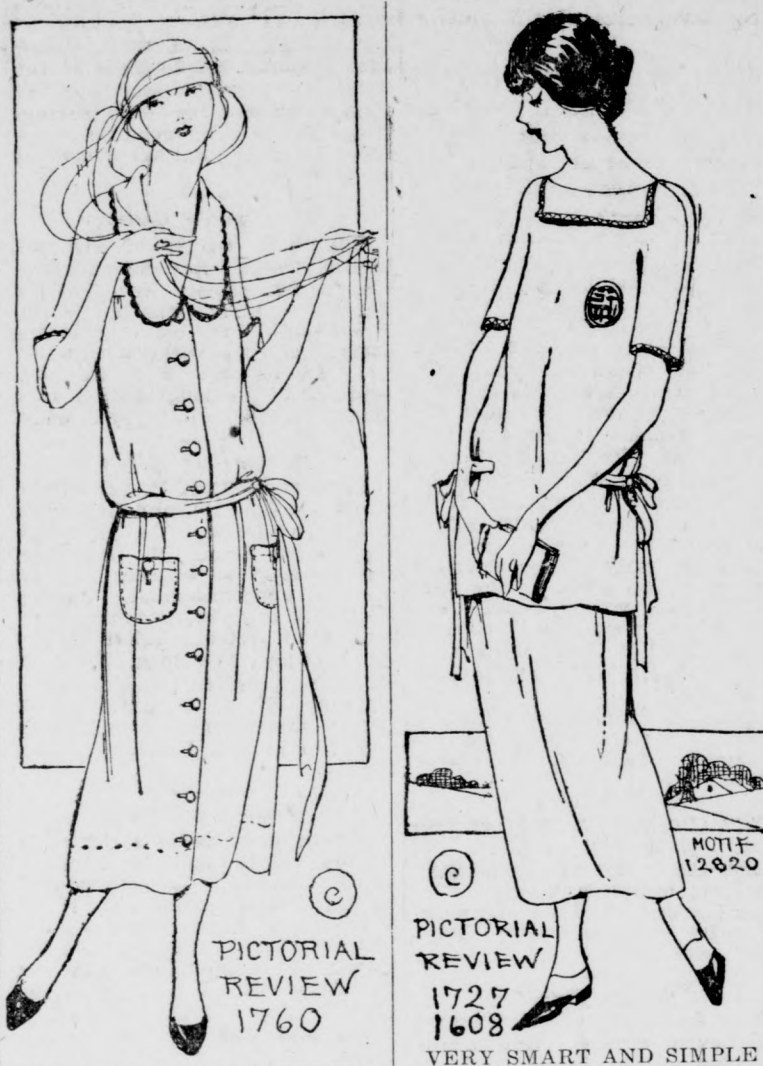

Mid-afternoon Lunch—Milk, five to six ounces.  
Supper, 5:30 to 6 P. M.—Same as fifteenth to eighteenth months. Cereals ready cooked can be given for a change when chewing teeth are in. Milk toast or creamed toast, or creamed soups, for a change. Stewed fruit, one-quarter to one-half cupful (very little sugar).

### ANSWERS TO MOTHERS

Mrs. A. Yes, thumb-sucking is a pernicious habit. If continued very long the pressure of the thumb molds the palate so that it becomes high and too arched, thus lessening the room for the nasal cavities. It forces the anterior jaws forward so that the teeth do not fit and the teeth often

## DAILY FASHION HINT

Prepared Especially for The Glendale Evening News

**CLEVER MORNING FROCK**  
Just as cleverly designed as it can be is this morning frock in dark blue cashmere. It buttons all the way down the front, and there are slashes at the armholes which form a semi-shoulder yoke effect when the lower edges are gathered and attached to the upper ones. Pockets add to the practical possibilities of the model. It also may be carried out in wool crepe, wool pongee or silk poplin. Medium size requires 4½ yards 36-inch material.  
Pictorial Review Dress No. 1760. Sizes, 34 to 50 inches bust. Price, 45 cents.

## Heart and Home Problems

By MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I have been going with a young man for the last two or three years, but not as steady company. Of late we had a little misunderstanding. Although he has asked me for dates since, I have not given him any. Now, although he meets me every noon and walks home with me and we talk, he never asks for dates.

There is a girl he has gone with a few times, but he says he doesn't care for her. Nevertheless he goes with her at times.  
I do care a lot for him and I think he does for me too. Please tell me what to do. Did I do wrong in treating him the way I did? Shall I try to forget him and let him go on with the other girl?  
RAENNA.

It is only natural that the young man would not continue to ask for dates after you had refused him several times. I think you made a mistake in turning him down so many times when you really cared for him. Now the thing for you to do is to say that you would like to have him come to see you some time. He has gone his half of the way and it is your turn to go your half.

Dear Mrs. Thompson: I am a girl of sixteen. My parents object to my going with boys. I thought I would see what your advice is. I don't see any harm in their calling at the house once or twice a week.

There is a boy of whom I think very much and he asked me if he could come to see me. I didn't know what to do, but I told him I would let him know. BERT.  
You are very young to have boy callers, but many girls of your age do have. To let a boy call at your home once in a while would be all right, it seems to me, because that is quite different from going away from home to places of amusement. When a girl is in her junior year at school she usually starts attending school parties and affairs of that sort. I judge from your age that if you are attending high school you are

not more than a sophomore.  
Of course, you will have to settle the matter of having a caller with your parents. If they object, the only thing for you to do is to tell the boy that your parents consider you too young to have company.

Dear Mrs. Thompson: I am a girl sixteen years old and my parents won't let me go with boys. Do you think it would be all right for boys to call at my house twice a week? There have been several boys who asked me for dates and I refused them.

Since my parents will not give me permission, would it be all right for me to go out with boys secretly? All of the rest of the girls go with boys.  
JEAN.  
You are very young to have young men callers. Wait a year or two and your parents will probably be more lenient and will offer no objections when you want to entertain. Many girls of sixteen have boy friends, but that is a very early age and parents are justified in objecting.

By no means deceive your parents. You cannot keep your secret and do such a thing. To form the habit of deceit would only bring you great unhappiness and would compromise your standing with your parents and with your friends.

An irritable old sportsman was aroused from his bed at 3 o'clock in the morning by the insistent ringing of his doorbell. On answering he found a seedy drunkard struggling hard to maintain his equilibrium.

"What do you mean by waking me up at this hour?"  
"Ish you Mr. Smithers?"  
"Yes, yes. What of it?"  
"Ish you the gent who advertised for a partner to go lion huntin' in Africa?"  
"Yes, I'm the gentleman. What do you know about it?"  
"Nothin' 'ceptin' I just wanted to tell you that on no conditions whatsoever will I go with you."

## BEAUTY CHATS

### MEDICAL BEAUTY HINTS

So many of the ordinary household antiseptics and medicines are also beauty preparations, that a few hints about them might be useful.

Peroxide of hydrogen has a number of uses, of course. A tablespoonful in the last rinse water when washing the hair acts as a disinfectant for the scalp, and helps correct oiliness. That much won't bleach the hair, but it will make it fluffy. It helps when there's dandruff, too, since dandruff is a germ and peroxide an excellent germicide.

Peroxide is good for manicuring, too. Wash the hands with warm water and soap and rinse. Roll cotton around the end of an orange wood stick, dip in peroxide (pour it out into a saucer first, for afterwards it will be useless), run around the edges of the nails and under them, too. This softens and bleaches the cuticle, and lets you rub away the dead cuticle that makes such an ugly edge.

Carbolated petroleum jelly, which contains a little carbolic acid, is excellent for sore pimples. Rub it gently into the skin, and later wash it off with warm water. Boracic ointment, which is only white cream and boracic acid, is good for any skin irritation, and, incidentally, cleanses the skin, makes it soft and helps rid it of discolorations and impurities. Powdered boracic is good for an oily complexion if used in the hot water when the face is washed. About a teaspoonful to a basin is ample.

If the feet are swollen and tired, soak them in a basin of hot water with a tablespoonful of boracic acid powder. It is wonderfully soothing. The same proportion of powder in hot water is also excellent for bathing the arms and hands when they perspire. It is a deodorant, too, and leaves the skin fresh and sweet smelling as it should be.

A. L. C.: When massaging cocoa butter into the pores, the object is to have the skin absorb as much of the oil as possible. To do this heat the cake slightly, and open the pores first by using hot water. No particular set of motions are necessary in giving such a massage. Every day is not too often for this treatment to show noticeable results.

Freckles: Sometimes people have a tendency to freckle for a time, when the condition changes through natural processes. There is no cure for freckling. All you can do is bleach off the spots whenever they become so dark as to disfigure.

Reta L. M.: Bobbed hair is still in favor. If a person is in need of glasses, he or she will look better with them than without them.

Miss A. B. C.: At 18 years of age, height five feet one inch, you should weigh about 110 pounds. A tablespoonful of olive oil in the same amount of grape juice, taken with the meals, will do much toward increasing your weight.

All inquiries addressed to Miss Forbes, in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped envelope must be enclosed with the question.—The Editor.

## With the Women of Today

By MRS. LILIAN CAMPBELL

Mrs. Edna L. Crow of Topeka, Kan., is one of the most successful women writing life insurance in the country today. She is manager of the woman's department of the Kansas agency for one of the largest eastern companies. Almost every month Mrs. Crow is mentioned as one of the leading producers for her company. For the last three years she has totaled \$200,000 each year. Until recently she was secretary of the Topeka Life Underwriters' Association.

"The advent of women into business

Mrs. Edna L. Crow.

ness," says Mrs. Crow, "opens a field for the woman life insurance salesman. The business woman, being very practical, realizes the value of life insurance, not only for the protection of her loved ones, but also for the stabilizing effect it has on her financial affairs. Of course, when there are women in the city and peasant classes the best way to take care of their babies, according to reports from Moscow. A series of parades have been planned for the cities, under the management of the Committee of Child Welfare. Banners for these parades bear the slogans, "Give Us Better Milk," "Don't Kiss Me On the Mouth," and other demands of the children of working mothers

whose future depends on the development of protective methods of early care.

Milk stations are already supplying babies with necessary feeding, according to the report. Consultation rooms make it possible for mothers to learn the right way for nursing their babies. Homes for mothers and babies provide an adequate place for mothers to rest for four months during confinement. Orphans and abandoned children are being looked after in institutions under the supervision of this department of public health.

REGAINS AMERICAN CITIZENSHIP

Mrs. Maud Howe Elliott, daughter of Julia Ward Howe, author of the "Battle Hymn of the Republic," is once more an American citizen. She was recently naturalized in the superior court, having applied under the act of congress permitting American-born women who had married foreign subjects to regain citizenship. She married a British subject in Rome, twenty-five years ago.

BETTER RUSSIAN BABIES

A national campaign is under way in Russia to teach working women of the city and peasant classes the best way to take care of their babies, according to reports from Moscow. A series of parades have been planned for the cities, under the management of the Committee of Child Welfare. Banners for these parades bear the slogans, "Give Us Better Milk," "Don't Kiss Me On the Mouth," and other demands of the children of working mothers

Saturday half-holiday is practically universal in England.

## BURBANK CITIES JUBILANT OVER WATER MAIN

Installation of Pipes Along  
Mountain St. Is Ground  
For Congratulation

Burbank joins hands with Glendale in a hearty grip of mutual congratulations on the occasion of water lines along Mountain street being completed clear through Verdugo road.

Upon completion of gas mains over this stretch paving work will at once be rushed to completion. It is stated by officials of Belhurst and Rossmore tracts, which are traversed by the street.

This will afford a shorter cut from Burbank to Pasadena than any existing at the present time, it is said, and will open up a vast beautiful territory for intensive homestead development, comparable with anything in the Southland.

**City Re-makes Streets**

"New streets for old" is the slogan of the city fathers, as Palm and Magnolia avenues bear witness. Formerly \$400 per block was not considered high for such work. It is now being done for \$215 a block.

The process consists simply of plowing up the old surface, grading and rolling down again with an additional coating of gravel and oil as a finishing touch.

Under the direction of R. R. Scott, street superintendent, this work is now under way on Tunjunga avenue. It might also be apropos to remark that this work is being financed from the regular street exchequer and does not cost the property owners one penny.

A novel feature of Superintendent Scott's plan is the inclusion of several civic-spirited helpers from the city calaboose, these benighted gentry seizing with avidity this chance to work off their fines.

First successful attempt to make a stove in this country was at Lynn, Mass., in 1642, when the first blast furnace erected in America tured out a small round-bottomed kettle with a cover.

## CHURCHES

"He profits most who serves best," motto of the national Rotary club, has been chosen by Rev. Ernest E. Ford, pastor of the First Baptist church for Sunday night, when Rotarians and their wives will be honored guests at the church service.

Rev. Ford is a valued member of the Glendale Rotary club, and the Rotarians are looking forward to hear his message on their motto. His subject will be "Service Above Self."

The Rotarians and their wives are to meet at the V. M. Hollister home, 416 North Louise street, Sunday night at 7:15 o'clock, and go in a body to the Baptist church.

**First Baptist**

Church at corner of Wilson avenue and Louise street; Rev. Ernest E. Ford, pastor; R. W. Carver, musical director; Eva Kurtz Christ, organist; R. L. Kent, superintendent; Sunday school 9:30 o'clock, from cradle roll to adult department; church service 11 o'clock, sermon by Rev. Ford, "The Best Argument for Christianity"; the three newly organized young people's societies will meet at 6:30 o'clock; evening service 7:30 o'clock, special Rotary club service, Rotarians and their wives guests of honor; sermon by Rev. Ford, "Service Above Self"; mid-week meeting Wednesday night, 7:30 o'clock, topic, "What I Know About God and the Future Life."

**Glendale Presbyterian**

"Church of the Lighted Cross" Harvard and Louise streets. Rev. W. E. Edmonds, pastor; Rev. Louis Tinning, assistant pastor; morning worship 11 o'clock, Glendale theatre, doors open at 10:30 o'clock, sermon by pastor, "Turning the World Upside Down"; Sunday school, fully graded, 9:30 o'clock, in the new building; Men's Bible class in the City Hall; Christian Endeavor Society 3, 6 and 8:15 o'clock; evening service 7:30 o'clock, in social hall of new building, sermon by Rev. Edmonds, "Hobab of Akaba"; mid-week service of prayer and praise, Wednesday night 7:30 o'clock.

**Musical in morning:** Organ recital, 10:40, Paul Carson, organist; (a) "Stradella" (Flotow), (b) "Melodie" (Chas. G. Dawes), (c) "Meditation—Thais" (Massenet), (d) "Jesus, Lover of My Soul"—Chimes (selected); quartet, "Festival Te Deum in E Flat" (Buck), Miss Flora Kilpatrick, soprano; Mrs. Fannie Maple, alto; Mrs. Charles A. Parker, tenor; Norman W. Kelch, bass; prayer response, "Hear and Answer" (Holton); tenor solo, "Hear Me When I Call" (Lang), Mr. Huddy; gospel solo by Mrs. Retts; postlude, "Ave Verum" (Buck).

**At night:** Song service, 7:30, Oscar F. Walton, pianist; quartet, "The Lord Is My Light" (Beirly); soprano solo, "Lead, Kindly Light" (Speaks), Miss Kilpatrick; offertory, "Adagio" (selected); quartet, "Hour of Prayer" (Wilson); postlude, (selected).

**Christian Science**

Church at corner of Maryland and California avenues. Sunday service at 11 and 8 o'clock, subject, "Doctrine of Atonement." Testimonial service on Wednesday night at 8 o'clock. Reading room, Ralph building, open daily except Sundays and holidays, 12 until 5 o'clock; Tuesday, Thursday and Saturday 7 till 9 o'clock.

**Central Christian**

Church at Colorado and Louise streets. Rev. Clifford Cole, pastor; Floyd Mercer, superintendent; Church school 9:30 o'clock, first session of reorganized school with the following departments, cradle roll, beginners, primary, junior, intermediate, high school, young people and adult, graded instruction; morning worship 10:30 o'clock, sermon by Rev. Cole, "Absenteeism as Sign of Decay"; three young people's societies 6:30 o'clock; evening service 7:30 o'clock, sermon by Rev. Cole, first in series, "Pathfinders and Pioneers of the Church," fifty colored slides depicting the life of Paul, "The Man Who Carried the Good News of Our Ancestors"; school of missions on Wednesday night.

**Musical in morning:** Anthem, "Praise Ye the Father" (Gonod); contralto solo, "Come, Ye Blessed" (Scott), Mrs. A. M. Draper.

**At night:** Church sing led by Rev. Cole; quartet, selected, Messdames Stoler and Jodon, Messrs. Cox and Marple.

**Congregational**

Church at North Central and Wilson avenues. Rev. C. M. Calderwood, pastor; O. E. Von Oven, church school superintendent; Howard Edward Cavanah, director of music; Miss Lila E. Litch, organist; church school 9:45 o'clock; morning worship 11 o'clock, sermon by Rev. Calderwood, "Dangers of Progress"; school of missions for all ages 6:15 o'clock; evening service 7:30 o'clock, illustrated lecture on "Moses, the Man Who Laid Foundations," by Rev. Calderwood.

**Musical in morning:** Organ prelude, "Andante Grazioso" (Smart); quartet, "Fairest Lord Jesus" (Rheinberger); offertory, "Monolog" (Bird); duet, "Home to the Loving Arms" (Bodenstein); postlude.

**At night:** Organ prelude, "Idylle" (Merkel); tenor solo, "The Good Shepherd" (Barre), Howard E. Cavanah; offertory, "Impressions du Soir" (Stiel); "Postlude" (Merkel).

**First Lutheran**

"The Friendly Church," Church at 233 South Kenwood street, Dr. H. C. Funk, pastor. Sunday school 10 o'clock; morning worship 11 o'clock, sermon by Dr. Funk, "In Quest of Souls," the first Reformation season address; the second, "The Key to the Scriptures," will be given next Sunday.

**Musical in morning:** Chorus,

street. Arthur W. Frodsham, pastor. Sunday school 10 o'clock; morning worship 11 o'clock, sermon by Rev. Frodsham, "Lifting Up of Hands, Its Meaning"; evening service 7:30 o'clock, sermon, "Salvation for Whom?"; Wednesday night, 7:45 o'clock, prayer meeting.

**Casa Verdugo M. E.**

Church at corner of Park and North Central avenues. Rev. J. C. Livingston, pastor; Sunday school 9:45 o'clock, George E. Tyrell, superintendent. Morning worship 11 o'clock, sermon by Rev. Livingston, "Relative Greatness"; young people meet at the usual hour; evening service 7:30 o'clock, sermon by Rev. Livingston, "Had He Bid These Do Something Great." Special music at all services.

**Holy Family Catholic**

Church at corner of Elk and Louise streets. Rev. Michael Galvin, parish priest; Rev. Patrick Curran, assistant. Masses at 6:30, 8, 9:30 and 10:30 o'clock. Rosary service closing with benediction at 7:45 o'clock. For the convenience of the congregation, four masses will be held every Sunday.

**Latter Day Saints**

Services in K. of P. hall at the corner of South Brand boulevard and Park avenue. Teacher training class, Clara M. Pinkston, instructress, 9 o'clock; J. H. Krenke, superintendent; Sunday school 10 o'clock; preaching service 11:30 o'clock; relief society on Tuesday, 2 o'clock, Viola D. McIntyre, president; Beehive class Tuesday at 3:30 o'clock, all young women from 14 to 21 welcome. Hyacinth Lambert is beekeeper.

**Ananda Ashrama**

Extension of Vedanta Centre of Boston, north end of Pennsylvania avenue, La Crescenta. Swami Paramananda of India, founder and head. Sunday services will be suspended during Swami Paramananda's absence. The Ashrama will be open to visitors Sunday and Thursday afternoons and visitors will be welcome.

**Church of the Nazarene**

PAGES 1 TO 6

## CHART OF MOVEMENT IN GLENDALE REALTY AIDS STUDY OF DEVELOPMENTS

Activity In Various Sections Of City In Past Few Days As Shown By Records of County; Brisk Demand For Lots

Behind every purchase of a house or lot in Glendale is a definite purpose. The trend of buying in one direction, in one tract, is an indication which is worthy of close study in speculative buying or buying for home making.

There are tracts in Glendale, where there has not been one lot or house sold for more than a year. With the entrance of the newcomers to Glendale this fall, the names of these tracts may enter into The Glendale Evening News weekly summary of the real estate market.

During the current week, the Oakridge Tract at the southeast side of Glendale, has been moving a number of lots under apparently a lease operation. The significance of the move is not explained as yet.

Then Glendale Valley View tract has continued an activity begun several weeks ago.

There has been some interest in Tract 4716, the Palmer-Adams street district, while along Glendale Boulevard there is a movement stimulated by the new street car service.

Westward Movement  
By far the greater general movement has been westward, the neighborhood of Doran, Patterson, Pioneer, Louise, Burchett, Pacific avenue, Salem, Wilson and Kenilworth receiving marked attention, apparently of home builders, since this is a residential district.

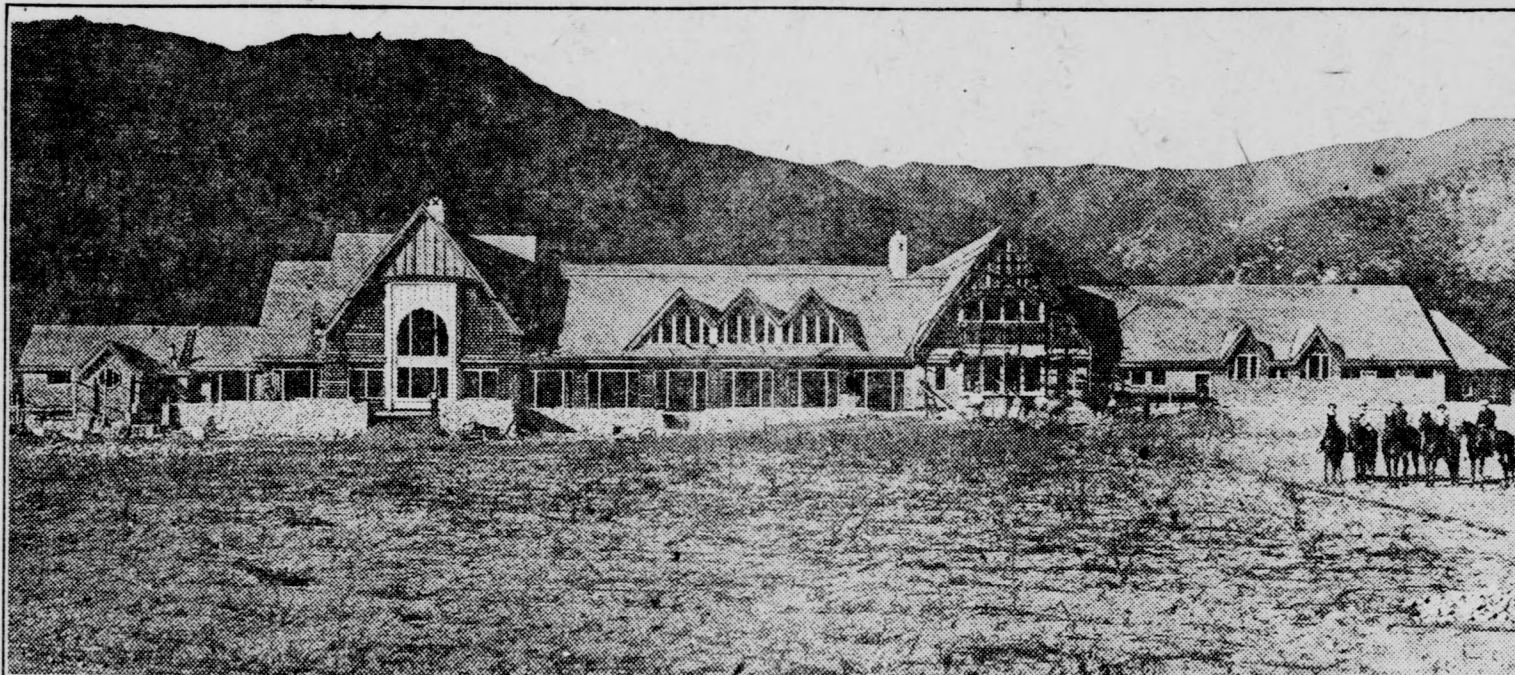

For the benefit of those who would study the movement of the market, to whom tract numbers and slogans mean nothing, The Glendale Evening News today prints a chart of the movement in real estate reflected during the six days from October 10, with the local boundaries of each tract

in which lots had been recorded as sold at the county recorder's office.

Chart Gives View  
A brief survey of the chart will give a clear idea of where operations have been active, and may be expected to be active during the fall.

Tract 3844  
Chestnut, Adams and Sycamore Canon Road. Lots 6, part 5, 4.  
Tract 121  
Central and Garfield avenue. Lots 28, 29, 30.

## Oakmont Country Club Building of Beauty

Work on the Oakmont Country Club is beginning to make a real showing. Yesterday marked the day when the entire structure, which is practically a city block long, was pronounced all under cover, the roof just having been completed. Work on the interior is steadily going ahead, and the course is now being seeded, and within a few weeks green lawns will take the place of what was once the big Sparr vineyard.

## California Second in Production of Rice

SACRAMENTO, Oct. 20.—California, while fourth in acreage of the four rice-producing states of the Union, is second in production, according to estimates issued by the Bureau of Statistics, state department of agriculture, in conjunction with the United States department of agriculture.

## Formal Opening Will Be Held About First Of December, Is Plan; Improvements Being Rushed to Completion

The beautiful English type clubhouse of the Oakmont Country club, rising at Sparr Heights, will be completed by November 1, reports H. M. Parker, general manager.

## Realty Board O.K.'s Legion's Attitude

The Los Angeles Realty Board through its governing committee recently heartily endorsed the attitude of the American Legion with reference to unwarranted and illegal use of the United States flag in subdivision advertising.

This matter was brought to the attention of the board by the Highland Park post of the Legion, whose investigation developed the fact that frequently subdividers use small United States flags stuck in the ground about their tracts.

The governing committee is on record as condemning this practice, which it believes is unethical and unworthy of any realtor or any real estate man.

A notice of the action of the board is being sent to all members, calling attention briefly to the proper use of the flag and suggesting that subdividers use it only properly displayed over their office or on a suitable flag pole.

Varied Attractions  
"Within the next week or ten days we will have under construction a swimming pool, tennis courts, covered parking space and children's playground.

"Approximately 400 memberships have been obtained, of the total quota of 750, so it is seen that our lists will soon be full.

"A big celebration will be staged at the clubhouse in a couple of weeks, with music and entertainment, offering members and friends an opportunity to survey the progress being made. It is planned to stage the formal opening around December 1."

Prosperity Continues Over Country; Glendale Is Making Record

For the first three-quarters of 1923, ending October 1, there was an average gain of 25 per cent in the 251 reporting cities of the United States, as compared with the same period of 1922, according to the national monthly building survey prepared by S. W. Straus & Co., the totals being \$2,474,563,198 for this year as compared with \$1,516,733 for last year.

Glendale, during that period, enjoyed a gain of 63 per cent for 1923 over 1922, the survey shows, clearly indicating the outstanding lead taken by this city in building affairs, the totals being \$7,315,971 for this year as compared with \$4,628,191 for last year.

According to the survey, these 251 reporting cities suffered a slight average loss this September as compared with that month last year, the figures being \$228,992,484 for September, 1923, and \$233,364,517 for September, 1922.

Gain By Glendale  
Glendale, on the other hand, enjoyed a slight gain this September as compared with that month last year, the figures being \$660,244 for September, 1923, and \$647,720 for September, 1922.

St. Louis with a gain of 83 per cent led all other cities in percentage of increase for the nine months' period. Los Angeles gained 63 per cent, Chicago 60 per cent, Detroit 38 per cent, Seattle 35 per cent, New York 26 per cent and Philadelphia 19 per cent.

The Eastern states lost 14.7 per cent in September as compared with September, 1922; the South lost 8 per cent. The Central states gained 24 per cent and the Far West gained 32 per cent.

Building material prices were

(Continued on page 3)

## LOCAL DELEGATION TO STATE REALTY MEETING BIG PUBLICITY WORKERS

Members Of Glendale Board Show They Are Live Wires and Get Great Amount Of Advertising for This City

By H. THOMPSON RICH  
Of the Evening News Staff

Reviewing the nineteenth annual convention of the California Real Estate association, held at Sacramento October 10, 11, 12 and 13, all local realtors agree it was the most successful and inspiring one in the history of the state.

"From the Glendale angle, it is doubtful if \$1,000,000 in cash would have accomplished more in advertising and boosting this city than our enthusiastic delegation of twenty-three members, wives and friends who made the excursion," says Cameron D. Thom, president of the Glendale Realty board.

"It was obvious from the start that we had the kindly feeling of the entire state. There was no salacious, no back-biting. Everyone, everywhere, hailed Glendale frankly and proudly as the new rising star in the firmament of Californian cities. In other words, they accepted us at our own valuation, as 'the fastest growing city in America.'"

"And look what we brought back from the convention. Re-election of Charles B. Guthrie and E. P. Hayward as directors of the state association, election of J. I. Wernette as a third director, election of Charles B. Guthrie as state vice-president, representing District No. 7, winning of second place in the C. C. Tatum achievement trophy award, and winning through Peter Hanson of second place in the home town contest.

"In addition, numerous members of the local board distinguished themselves by speeches that claimed the attention of the entire state—among them Charles B. Guthrie, J. I. Wernette, Peter Hanson and Dr. Jessie A. Russell.

"And perhaps more important than any one other trophy brought back, is Pasadena as the 1924 state convention city. We backed Pasadena and backed her strong. We wanted her to win—and she won. It will mean a lot to Glendale, having the convention in Pasadena next year, because every

one of the thousand and more delegates who will attend must go through Glendale to get to Pasadena; and because hundreds will become intimately acquainted with what our city has to offer, while convening in our neighbor city."

Summing up results of the convention from the state angle, vice-president Charles B. Guthrie of the California Real Estate association states them as follows:

"First, the spirit of unanimity and co-operation manifest on every hand, the lack of selfishness and intense desire to accomplish the greatest good for the greatest number.

"Second, the determination to make of real estate in its multiple phases a profession and not merely a business.

"Third, the obvious and often-expressed need for more education along every line pertaining to transfer of property, that we may all become better realtors and better citizens."

Value to Realtors  
E. P. Hayward, executive secretary of the Glendale Realty board and a director of the California Real Estate association, calls attention to the immense value to realtors, of motor caravans such as the one that recently journeyed from Glendale to Sacramento and back.

"Every one of us returned with a clearer vision of the vastness of (Continued on Page 2)

## We Wish to Call the Attention of Intending Buyers of Lots in Campbell Heights

—To the fact that these lots, which are all oversize, ranging from 58x160 to 120x180, are being steadily disposed of, and the number remaining on our hands is growing smaller each week. Those who have expressed their intention of buying in the future are urged to make no further delay.

—You still have the opportunity to buy a few choice locations at the opening sale prices.

THE OWL DRUG CO.

BETTER DRUG STORES

## Reasonable Drug Store Hours For Public and Employees

Conforming to its well known policy to give an adequate drug store service from the standpoint of hours open for business, and at the same time make pleasurable and livable working hours for its employees, The Owl Drug Co. announces that its Glendale store will be operated in the future on the following basis:

### Week Day Hours

Open Daily from 8:00 A. M. to 10 P. M.  
Saturday—from 8:00 A. M. to 11:00 P. M.

### Sunday Hours

Open from 9:00 A. M. to 12:00 M.  
Open from 6:00 P. M. to 10:00 P. M.

This leaves a full afternoon closing schedule, permitting our employees to enjoy a business respite at a time when the public also are least discommoded.

Our 10:00 P. M. closing is put into effect so that the law may be fully observed, covering reasonable hours of employment for both men and women.

The co-operation of the people of Glendale is respectfully asked in this connection, as we believe this schedule will permit you to be waited upon during business hours by happy and contented people.

## RESIDENCE PARK PROVING POPULAR

Woodbury Heights, Pioneer Estate, Already Reserved For About \$75,000

Reservations totaling \$75,000 have been made at Woodbury Heights, on North Verdugo road between Lexington drive and Monterey road, reports T. W. Watson of the T. W. Watson company, 708 East Broadway, subdividers and sales agents of the property.

"All improvements are now in on the lots fronting on Verdugo road," Mr. Watson states, "and these lots are now available for immediate building. The contract for the balance of improvements in the tract will be let as soon as engineering details are complete.

"We feel it a pleasure to offer to the public of Glendale this beautiful, carefully restricted residence park that for forty years has been the private estate of Mr. and Mrs. George Woodbury, pioneers of the city.

### Offers Big Variety

"Each lot is a jewel, charming in location, matchless in view, completely improved, the tract offering a great variety to choose from. Considered as a whole, Woodbury Heights is an ideal residential section, combining nearness to business center with proximity to schools, cars, bus lines and main boulevards.

"Prices, including cost of all street improvements and a special system of ornamental lighting, are very reasonable for this class of property and should be investigated without delay by all prospective home-builders.

"Terms are 20 per cent cash and four years to pay the balance, with a 5 per cent discount for all cash and building restrictions from \$60,000 to \$70,000, no lots less than 60 feet in width. Our tract office is now open for reservations at the above address."

## BELLEHURST HILLSLOPES WIN POPULAR APPROVAL

People Of Glendale Get Invitation To Inspect Wonderful View

This picture shows the approach to Bellehurst Hillslopes, the magnificent new tract being marketed by the Walter H. Leimert company. Bellehurst Hillslopes appears in the background.

Formal opening announcement was made yesterday and will be repeated today and tomorrow in all the great Los Angeles newspapers of the sale of Bellehurst Hillslopes.

According to Earle Beatie, this announcement should bring as great a crowd to Glendale as responded last spring when Bellehurst Park was first opened to public sale. If this should happen almost every lot in this tract will be gone within a week or two, as there is only a limited amount of this hillside property available.

According to Beatie, the great majority of Glendale citizens have watched the rapid construction of the new roads in this hillside unit from all parts of Glendale, but

only a comparatively small number have driven over these new, wide, curving hillside boulevards to enjoy the matchless panorama spread out below.

### Get New Conception

The message of the Leimert company to Glendale this week is this: "Come up here and look back. The panoramic view extending for twenty-five miles to the east, south and west awaits you and you will get a new conception of the beauty of Glendale."

The investment value of hillside lots, according to the best judges, exceeds by far the possibilities of ordinary flat land; particularly is this true in cases like Bellehurst Hillslopes, located well within the built-up sections of a

great city. In all the greatest cities of the world hillside property like this, commanding inspiring views, is eagerly sought for by people of great wealth, who gladly pay fabulous prices. This is easy to understand when it is realized that a hillside lot is more than a plot of ground; it is a unique homesite, individual and different. Its views are a daily inspiration and the pure air of these rare elevated sections brings health and happiness beyond the possibilities of any low, flat homesite surrounded by thickly built-up houses on all sides.

If you have not seen Glendale from Bellehurst Hillslopes, make a special effort to get out to the tract today or tomorrow before the last lot is sold.

## BUILDING GAINS THROUGH NATION

Prosperity, Continues Over Country; Glendale Is Making Record

(Continued from page 1)  
well stabilized during September. Though there were some minor fluctuations, the general level was without significant change; in fact, with the exception of a few grades of brick, building tile and southern pine lumber, prices of the previous month generally prevailed.

The attitude of labor as it was expressed at the convention of the building trades department of the American Federation of Labor and in reports and statements made at that time by leaders of organized labor indicated that in some trades still higher scales can be expected with a continuation of present activities. All building labor is fully employed at the present time, according to the reports of these union officials.

The number of apprentices is increasing rapidly, and the attitude of the majority of organizations was indicated as being favorable to the removal of all restrictions. The advent of these apprentices is expected to be a factor in stabilizing wages within the next two or three years, so labor leaders asserted.

**Warning By Gompers**  
Stabilization of the industry to mitigate the evils of labor migration and seasonal employment was urged at the convention.

It was urged also, that in the interests of the entire industry, building activities should be kept going normally rather than endeavor to make up the present building shortage through abnormal building activities over a short period. The hope was expressed in this connection that construction work on all types of buildings not immediately necessary, particularly public buildings, be temporarily deferred and that the efforts of the industry as much as possible be concentrated on home building with a view of safeguarding the public against a continual upward tendency in rents.

Strict adherence to wage contracts in the building industry was voiced by the convention, which was warned by President Gompers that the obligation upon the unions and the men was that where there were agreements in existence with employers they must continue to work from the beginning of the excavation to the completion of the operation.

**Record-Breaking Wages**  
Jurisdictional strife was reported as being largely eliminated. The controversy between the bricklayers' and plasterers' unions as to jurisdiction on certain work, which was regarded as a menace to the industry, was reported settled, both sides having agreed to cease hostilities at once and prevent future stoppage of work. The National Board of Jurisdictional Awards was directed to continue its effort to bring about an immediate settlement of the jurisdictional controversy between the carpenters and sheet metal workers.

Minimum wage scales in the building trades on the eight-hour basis as submitted to the convention showed that labor is getting the highest wages in history. Bricklayers throughout the country are receiving from \$1 to \$1.50 per hour; carpenters, \$0.85 to \$1.25; plasterers, \$1 to \$1.50; building laborers, \$0.25 to \$1.10; structural iron workers, \$0.75 to \$1.37 1/2; plumbers, from \$0.50 to \$1.50; lathers, \$0.70 to \$1.25; electricians, \$0.70 to \$1.25; stone cutters, \$0.75 to \$1.50. It was stated, moreover, that many workers are receiving bonus payments of from \$1 to \$4 daily in addition to the regular wage scales.

## PHONES INDICATE GROWTH OF CITY

New Glendale Installations Average 100 Per Month Since January 1

The telephone is said to be one of the best of business barometers and if such is the case Glendale is in very healthy condition, if not suffering from growing pains.

Manager Fred Deal of the local office of the Pacific Telephone & Telegraph company has just received the company's magazine for October, in which interesting statistics regarding increase and decrease in the number of telephone users in the various cities are given.

Since the first of the year new telephones have been installed in Glendale at the rate of almost 100 per month, an increase equaled by very few cities of similar size.

**Glendale Forges Ahead**  
Riverside and Bakersfield are great cities, but Glendale now has more telephone users than either of them. The figures given are as of September 1. On that date Glendale had 6,170, as against 4,420 at the first of the year. Bakersfield was ahead of Glendale at the first of 1923, but now has only 4,954, showing a slight loss. Riverside also was ahead, but with its small increase now reports 4,844.

All the towns in the Glendale district report substantial increases. Burbank increased from 680 to 904, Lancaster from 220 to 324, and Van Nuys from 400 to 470.

## Tax Transfers Show Westward Movement

Indicating that people from all parts of the United States are moving to Los Angeles, a report sent to Washington yesterday by Collector Rex Goodcell showed that the number of income tax items transferred into this district from other sections of the country since January 1 outnumbered the items transferred from Los Angeles to other internal revenue districts by 250 per cent.

"This means," said Collector Goodcell, "that two and a half times more people are moving into Los Angeles than are moving out."

Collector Goodcell's report showed that during the first nine months of the calendar year \$31,214,659.56 in income taxes had been collected in the Los Angeles district, indicating that the total for the year will reach the \$40,000,000 mark.

The highest wages in history. Bricklayers throughout the country are receiving from \$1 to \$1.50 per hour; carpenters, \$0.85 to \$1.25; plasterers, \$1 to \$1.50; building laborers, \$0.25 to \$1.10; structural iron workers, \$0.75 to \$1.37 1/2; plumbers, from \$0.50 to \$1.50; lathers, \$0.70 to \$1.25; electricians, \$0.70 to \$1.25; stone cutters, \$0.75 to \$1.50. It was stated, moreover, that many workers are receiving bonus payments of from \$1 to \$4 daily in addition to the regular wage scales.

Official tabulation of the membership of the affiliated international unions in the building industry showed a total of 502,132 craftsmen, exclusive of the carpenters' union, which has a membership in excess of 350,000.

## Boudoir Dressing Table Easily Made at Home

The amateur carpenter with his work bench in the cellar will find this boudoir dressing table easy to make. A few clear white pine boards, several yards of figured cretonne and a plate glass mirror comprise the essentials.

For the table proper, the details of which are shown in Figure 1, there will be required about twenty linear feet of clear white pine, twelve inches wide and seven eighths of an inch thick. To cut to advantage, it should be procured in two boards, one twelve feet long and the other eight. If the dimensions in Figure 1 are followed, the table resulting will measure twelve inches wide.

Should greater depth be desired, wider boards should be used. Sufficient stock for the two drawers may be secured from one board six feet long, twelve inches wide and three-eighths of an inch thick. The amateur will find no difficult joinery involved in making the cabinet drawers as shown in Figure 2.

When the woodwork is finished, a piece of figured cretonne should be drawn smoothly up one end of the table, across the drawer cabinet, down to the surface of the table, over the other drawer cabinet and down the other end. Small cloth-headed tacks may be used for making it fast. Material

enough for turning under at the edges should be allowed. The gathered curtains that cover the shelves on each side should be hemmed on the four edges. Because of their moderate width they may be tacked to the edge of the table top without rendering the shelves difficult to reach.

**Plate Glass Tops**  
The most desirable finish for the top of the table will be provided by three small sizes of plate glass. The two covering the drawer cabinets will be twelve inches square, the single sheet on the table surface twelve by eighteen inches. In addition to providing an ideal surface, it will insulate the cretonne from setting dust and the stains of cosmetics at the principal points of wear. In case a glass cover is not used, a pleasing padded effect may be produced by placing several layers of cheesecloth beneath the cretonne on the top. A plate glass mirror to hang above the table is, of course, essential. Its dimensions should be sixteen by forty-eight inches.

Before the cretonne is tacked in place, the table, cabinet drawers and mirror frame should be given at least two coats of paint. The hue selected would be determined by the color of the cretonne and the color scheme of the room. Tall, tapering candles provide the finishing touch.

### Realtors' Activities Featured In Papers

More than 5000 news stories of the activities of members of realty boards and the California Real Estate association are printed monthly. It is a conservative estimate, according to the summary of its daily clipping service by the California Real Estate association. The real estate development news and advertising page is an actuality at least weekly in approximately 100 papers of California, the association said. Realty boards are active in about 100 cities and towns, and have been accorded hearty and liberal support and publicity by the newspapers. In addition to California printed stories, hundreds of clippings of realty activities in California boards are republished in the middle west and east, both in newspapers and magazines, as a result of the wide distribution of the California News Service of the California Real Estate association.

### DEED MUST SHOW GRANTEE'S NAME

Conveyances Left Blank Are  
Illegal, Says Attorney of  
Realty Board

By CARLOS G. WHITE  
Attorney of Oakland Real Estate  
Board

It is surprising how years of careless practice sometimes result in customs and practical daily operations that are absolutely illegal, though not known to be illegal, by those practicing such customs. The real estate business is increasing both in importance and dignity year by year, and the careful broker should establish himself in the habit of doing things right.

One of the dangerous habits that some have, in times past, resorted to is that of signing conveyances of real property with the name of the grantee in blank, accompanied with verbal instructions to fill in the name of the grantee at some future time. A document with the name of the grantee in blank is not legally a deed. It is not a conveyance of real property; it is simply a piece of paper. In order that one may have authority to convert a piece of paper into a conveyance of real property for another, that authority must be in writing. In an early California case the supreme court said, in reference to a deed that had been left in blank and the name of the grantee inserted by the agent: "When that instrument was left with the agent by the grantor named in it, it was not his deed for the obvious reason there was only one party to it, and no one could convert it into his deed except the plaintiff himself or some one by him duly authorized; and as it could not become the grantor's deed until the name of the grantee was inserted, that act could not be performed by an agent in the absence of the grantor unless his authority was in writing."

Orders Deed Canceled  
In that case, the supreme court ordered the deed which had been filled in by the agent in accordance with oral instructions, to be delivered and canceled. In a comparatively recent case the same matter was before the supreme court again, and in the decision that court subsequently held that the act of a notary public in inserting the names of the parties and a description of the property after the grantor had left his presence, was absolutely void, notwithstanding the fact that the grantors had orally authorized the notary so to do.

If it is desired to vest in an agent the authority to insert the name of a grantee into an instrument and thereby convert it into a deed, such authority of the agent should be evidenced by the written instructions and authorization of the grantor. In this connection, however, it is only fair to distinguish between conveyances of real property and certain instruments of less importance in the eyes of the law. If the authority to do the act can be orally conferred, as it can except where expressly prohibited by law, then it is perfectly proper to fill in the name of a party without written consent so to do.

**Appellate Decision**  
The appellate court, in the case of an assignment of money, declared: "It has been held that blanks of any description left for writings not under seal, may, except so far as they may be prohibited by the statute of frauds, be filled pursuant to parole thereof; and it has been laid down generally that if one signs an instrument containing blanks, he must intend it to be filled in by

### BOOST LOOMS IN DEMURRAGE RATE

Shippers Hold Cars in Ex-  
cess of Free Loading  
Period, Railroads Say

An increasing number of freight cars are being held by shippers and consignees in California in excess of the 48 hours free time allowance for loading and unloading and it may become necessary for the California rail lines to ask for an increase in the demurrage rate in order to protect the general shipping public which needs cars promptly, and to expedite service.

This possibility was referred to today by E. J. Barrett, District Manager of the Pacific Car Demurrage Bureau at Los Angeles, in making public figures on freight car detention.

**162,915 Cars Held**  
"During the fiscal year ending June 30, 1923," said Barrett, "162,915 freight cars were held in excess of the 48 hours by shippers and consignees in California for loading and unloading. This is more cars than were held in the combined four years of 1914, 1915, 1916, and 1917. A total of 351,634 car days were lost on these cars covering only detention in excess of 48 hrs., this being a greater loss than in the combined five years from 1913 to 1917, inclusive."

"Approximately 1,500 cars are now being held every day under storage or demurrage, as compared with about 200 cars prior to 1918. This detention of cars for storage is now 300 per cent greater than in 1917, although carload traffic has increased less than 30 per cent since that time. This situation, I believe is caused by the present low demurrage rate, combined with the so-called 'average agreement rule.'"

"The railroads are making a remarkable record in operating efficiency and have handled a heavier load of traffic than in any previous year in their history. The carriers, however, are handicapped by the tremendous increase in detention of cars for storage purposes."

"The carriers do not want demurrage for revenue, but both carriers and shippers need cars for transportation purposes. Many shippers who load cars promptly feel that in justice to them a higher penalty should be imposed on shippers and consignees who do not assist in keeping cars moving but slow up transportation by holding cars for storage or other purposes."

During the ten years, 1909 to 1919 the demurrage rate in California was not less than three dollars a day and for two years of that time it was six dollars a day. Since 1919 the rate has been two dollars a day for the first four days and five dollars a day thereafter. It has been suggested that the former three dollar rate be restored after expiration of the usual free time and that the "average agreement" rule, a cause of car delay, be canceled.

From 10 to 15 per cent of school children, 25 per cent of men and 50 per cent of women, suffer from headaches, according to one authority.

Jedda, in Hejaz, Arabia, the harbor of which is the port of embarkation of pilgrims for Mecca, sees 50,000 passing through there each year.

the person to whom it is delivered." This implied authority, however, as above pointed out, does not apply to deeds conveying an interest in real property.

# ~and NOW! Bellehurst Hillslopes

**OPENING SUNDAY**  
*The finest tract of all*

This is the opening announcement of the most beautiful, unique and valuable tract of residential property ever opened to public sale in the metropolitan area of Los Angeles.

ONE OUTSTANDING FACT alone places this subdivision in a class all by itself.

"For Bellehurst Hillslopes cover the outward curve formed by the southern point of the Verdugo Mountains just where these beautiful foothills pierce the city of Glendale to its EXACT CENTER."

"As a result almost every lot has an absolutely unobstructed THREE-WAY VIEW—east, south and west, with the massive Verdugo Mountains in the background."

"NO CANYON WALLS HERE TO BLOCK THE VIEW."

Nothing like it can be bought today at anything like the OPENING PRICES we have placed on every lot in the tract.

SPLENDID BIG LOTS, all different in size and shape, commanding the most inspiring panorama you have ever gazed upon, now for sale at prices ranging from

**\$1500 to \$3000**

—with a few special bargains as low as \$900.

All you need is a couple of hundred dollars to own a lot in Bellehurst Hillslopes—at just a fraction of the cost of any hillside property in the Santa Monica range or any other elevated section anywhere near Los Angeles, while Bellehurst Hillslopes are CLOSER IN TIME to downtown Los Angeles and FAR MORE BEAUTIFUL.

The wealthiest people who come to Los Angeles choose and PAY HIGH PRICES for the few available hillside locations.

This is YOUR ONE GREAT CHANCE to get some of this coveted property at our OPENING PRICES.

BE ON THE TRACT SUNDAY EARLY or, if possible, come out NOW and make an advance reservation.

## TUJUNGA SPECIAL SERVICE TO HONOR PRIEST

45th Anniversary of Father  
Tonello's First Mass to  
Be Celebrated

Tomorrow, Sunday, October 21, there will be a solemn celebration in the Tujunga Catholic chapel of the forty-fifth anniversary of Father Tonello's first mass service. Rev. Father Welsh, S. J., president of Loyola college, Los Angeles, will preach the sermon.

Music will be furnished by the choir of the Alhambra Catholic church, under the direction of Professor Gualano.

Father Tonello, who also bears the title of Monsignor, has been in Tujunga many years. He established the chapel in Manzanita park and has seen his flock grow from a scant dozen to several hundred.

**Honored by Pope**  
Early in the present year Father Tonello was rewarded for distinguished services for his church by the Pope of Rome, receiving the title of Monsignor. Simple, yet impressive, ceremonies were held at the time, at which many notables were present at the little chapel.

Father Tonello is the third priest in the United States to receive this honor. There are but thirty bearing the title in the entire world and it is considered a very great honor, coming directly from the Pope. The right to bear this title was bestowed upon Father Tonello for work done principally in Chicago among the very poor of his countrymen.

**Special Services**  
At the Tujunga Community church Sunday evening the services will be conducted by the Junior Crusaders from the Angelus Temple in Los Angeles.

Wesley Fleming, the boy preacher, will speak, and Anna Lacey, child soloist, will sing.

Dr. Stotts will take "Open the Windows of Heaven" as his topic for the 11 o'clock service, taken from the Book of Malachi.

In the evening Christian Endeavor society members will give short talks on "Opening the Windows of the Home and the Church."

**Art Guild to Meet**  
A regular meeting of the Fine Arts Guild of Tujunga will be held tonight, Saturday, October 20, in the studio at Michigan avenue and Hillhaven road.

Charles A. Taylor will speak and there will be a water color exhibit by Harriet Barry.

Extensive alterations have been made in the front office of the Tujunga Valley bank to accommodate the increasing escrow department business. Deposits are now more than \$300,000, according to a report of the board, showing a rapid increase.

Contractor R. J. Smith of Tujunga is building a \$4000 home for Mrs. Blanche A. Hess at Del Mar street and Grand view avenue.

## TONGUES TO LASH ON WORLD COURT

Glendale and San Diego  
High School Debaters  
Meet Nov. 23

"Madam chairman, honorable judges, worthy opponents, and friends! I come before you this evening to uphold the affirmative of the question: Resolved, That the United States should join the World Court."

Such will be the first words on the night of November 23, when Glendale meets San Diego in a simultaneous debate on the above question.

As the coming junior-senior word battle is on this same subject, the debaters will have already had the important items lined up, and it will only be necessary to perfect them in delivery and to add a few more points to make the locals ready to lift the southerners' scalps.

**Action at Two Places**

As it is a simultaneous debate, there will be two teams chosen, one to go to San Diego, and the other to defend the Red and Black at home. San Diego has always been one of Glendale's finest tongue-lashing opponents and although they have never yet succeeded in downing Glendale, yet they come every year full of fight and argument.

This will be the first debate in the Southern California league, and the locals hope to start out right by out-talking their "worthy opponents" in every phase of the battle.

Tryouts will be held next Friday afternoon, October 26. Those expected to show up at that time are: Paul Cunningham, secretary of debating; Isabel Tousey, Arden Gingery, Charles Worley, Horace Anderson, Bonnie Jean Lockwood, Wendell Beauchamp, Mary Jo Phillips, Jack Finch and Velma Bolton.

**Railroader Predicts  
Record Traffic Year**

LOS ANGELES, Oct. 20.—While there has been but little if any noticeable break in the travel as compared with the summer season just closed and the on-coming fall and winter travel, General Passenger Agent James B. Duffy of the Santa Fe predicts the record business for the coast

**Crosses Ocean Four  
Times to Wed, She  
Fails Against Laws**

MISS RUTH CARLSEN

NEW YORK, Oct. 20.—Now famous as the champion long distance bride of the world, Miss Ruth Carlsen is on her way to New York after four vain trips across the Atlantic, still clinging to the hope that she will finally be able to beat the immigrant quota law and marry the man of her choice, Albert Haggblom of Newark, N. J.

Meanwhile, the absorbing romance of the beautiful girl from Finland has brought many offers of help in her vain gambles with the quota law from wealthy and socially prominent men and women, who are willing to put up the necessary bonds.

Finland's quota under the present immigration law is extremely small, while the number of Finns seeking entrance into the country is correspondingly large. The young woman's various setbacks have been due to Finland's quota always having been complete when she endeavored to land in this country.

**\$20,000 REALIZED  
ON REALTY DEAL**

**Legionnaires Sell Mountain  
Street Property for  
Part of Subdivision**

Following the good example set by other organizations in obtaining a home in Glendale the local American Legion post last night authorized the consummation of its first real estate sale at a handsome profit.

By a practically unanimous vote of the members present the trustees were authorized to sell for \$20,000 the Mountain street site donated the legionnaires by a vote of the people some time back. This tract will be combined with the 136-acre tract already in the possession of the DuBain Realty company of Los Angeles and placed on the market at an early date.

A week ago a similar proposition was turned down, but on the advice Edward M. Lynch, civil engineer, City Manager Reeves and several real estate men and attorneys, the veterans saw their way clear to take a reasonable, if not gratifying profit on the property.

**Another Deal Planned**  
Another resolution, introduced by Robert Plume, instructing the trustees to pay off twenty notes amounting to \$5000 on the property at 123 South Maryland street also was adopted, the two deals to net the post sufficient, perhaps, to buy or build a home—a long-sought event.

More than an hour's debate marked the consideration of these financial problems with City Manager W. H. Reeves complimenting the members and their commander, Chalmers D. Day, on the polite parliamentary procedure maintained, although the "previous question" was lost sight of several times.

A great deal of credit is due several realtor members of the post for their untiring efforts in the matter, it is stated, and their generosity is appreciated.

**440 CYRENES SLAIN**  
LONDON, Oct. 20.—Italian troops on the Cyrenaica front attacked the rebel natives, killing 440 of them, said a Central News dispatch from Rome, quoting military advices from Tripoli.

News Want Ads produce results, and California will be made this year.

Plans for some time have been going on adequately to handle the enormous tourist traffic, and a large additional number of trains will be used between Los Angeles-San Francisco and Chicago and the east between now and next March.

Many Glendale Merchants—beginning this week in the Glendale Shopping News, present unitedly hundreds of wonderful values in desirable and seasonable merchandise.

—There has been a great advance in the size and the character of Glendale stores the past few years, and extra effort is being made to show newcomers to Glendale, as well as citizens in general of Glendale, Burbank, Eagle Rock and vicinity, that buyers can secure any kind of merchandise desired in Glendale to advantage, considering both price and quality.

—All things being equal it is also more convenient to trade in Glendale.

—The fact that plenty of parking space is now available near the business section of Glendale insures that shopping can be done without any rush and hurry, but with an ease that makes a visit to the shopping district a real pleasure.

—By supporting Glendale merchants people of this city will, perhaps, do more to build up the business life of this city than in any other way.

—At least give your local merchant an opportunity to serve you.

—You will find that it will pay you as well as them.

**\$1 00**  
EACH

## Glendale Folks:

Our advertising man is sick. My partner says he can't write ads, that it is "up to me" to blacken this page; so here goes:

"A little bit of Heaven," "This bit of Nature's grandeur," "California's little Switzerland." These trite phrases and others keep jumping up before my eyes. They are from word painters' earlier efforts to tell you the beauty of Sparr Heights. Our latest offering, Montecito Park, an exclusive restricted, home and estate district, is in Sparr Heights, in those green Verdugo Hills in North Glendale.

But I know this sort of stuff doesn't tell the story as it should be told because nine out of every ten of those who come out and look us over say, "Why don't you have your advertising man write ads which will tell the people what you really have in Sparr Heights?"

Seymour Thomas, world famous portrait painter, lives up here, and one day I asked that he look over Montecito Park. His reply was, "Why Mr. Walters, my wife and I live up here and have driven by hundreds of times and well we know its beauty." However, I urged and Mr. Thomas allowed himself to be shown off the boulevard and back into the park. When he returned to the tract office he said, "We never dreamed such beauty lay hidden just off the boulevard."

That's just it, folks, you must drive *off* Verdugo Road and *into* Montecito Park to realize what a wonderful home setting is there.

Having read thus far, go one step further. Get into your car, drive out Glendale Avenue and up Verdugo Road to Montecito Park, and you will realize how difficult it is for any man to paint a word picture of "those green Verdugo Hills."

Yours truly,  
M. W. WALTERS.

P. S. Our advertising man says he'll be back on the job next week with some real good copy. The kind that says "All—Everything." Well, we'll see! M. W.

P. P. S. Of course you know the streets are to be paved with concrete; sewer mains and laterals laid; ornamental street lamps, water, gas, light, etc. M. W.
